

STATE OF OREGON

COUNTY OF UNION

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

WILLIAM G. TSIATSOS
53540 BASELINE LANE
LA GRANDE OR 97850

confirms the right to store water perfected under the terms of Permit R-14740. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION NUMBER: R-87337

SOURCE: RUNOFF, TRIBUTARY TO MEADOW CREEK

STORAGE FACILITY: HOKEY #2

PURPOSE or USE: FIRE PROTECTION, STOCKWATER, FISH CULTURE, WILDLIFE

MAXIMUM STORAGE VOLUME: 6.7 ACRE FEET

WATER MAY BE APPROPRIATED FOR STORAGE DURING THE PERIOD: FEBRUARY 1 THROUGH APRIL 14

DATE OF PRIORITY: NOVEMBER 14, 2008

DAM LOCATION/ POINT OF DIVERSION LOCATION:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
4 S	35 E	WM	15	NW NE	212 FEET SOUTH AND 1978 FEET WEST FROM NE CORNER, SECTION 15

The area submerged by this reservoir is as follows:

Twp	Rng	Mer	Sec	Q-Q
4 S	35 E	WM	15	NW NE

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate at any time before it has issued, and after the time has expired for the completion of the appropriation under the permit, or within three months after issuance of the certificate.

CONDITIONS OF USE

1. Measurement, recording and reporting:

A. The Director may require the water user to install a staff gage or other suitable measuring device(s) as approved by the Department. If the Director notifies the water user to install a measuring device(s), the water user shall install such devices within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the water user shall maintain the devices in good working order and shall allow the Watermaster access to the devices. The Director may provide an opportunity for the water user to submit alternative measurement procedures for review and approval.

B. The Director may require the water user to keep and maintain a record of the amount (volume) of water used, and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water-use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

2. The storage of water allowed herein is subject to the maintenance of an outlet pipe, or the provision of other means to evacuate water when determined necessary by the Director to satisfy prior downstream rights.
3. The water user shall pass all live flow outside the storage season described above.
4. This right allows an annual appropriation (not to exceed the specified volume). This right does not provide for the appropriation of water for any out-of-reservoir uses, the maintenance of the water level, or maintaining a suitable freshwater condition. If any water is used for out-of-reservoir uses, or any live flow is appropriated to maintain either the water level or a suitable freshwater condition, a secondary water right is required.
5. Notwithstanding that Oregon Department of Fish and Wildlife has made a determination that fish screens are not necessary, the water user may be required in the future to install, maintain, and operate fish screening to prevent fish from entering the proposed diversion.
6. Diversion of water under this right may be regulated while state Scenic Waterway flows are unmet downstream. The Director may require the user to monitor flows at one or more specific downstream location(s) electronically online, and discontinue use while state Scenic Waterway flows are not met at those locations. At the discretion of the Director, the location and nature of the monitoring may be subject to change.
7. Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.
8. This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
9. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
10. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

11. The use may be restricted if the quality of the source stream or downstream waters decreases to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.
