The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The water user shall maintain an in line flow meter or other suitable device for measuring the water to which the applicant is entitled.

Water may be applied to lands which are not specifically described above, provided the holder of this right complies with ORS 540.510(3).

This certificate is issued to confirm a change in USE AND PLACE OF USE approved by an order of the Water Resources Director entered May 6, 1985, at Special Order Volume 39, Page 169, approving Transfer Application 5605.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

Issued           AUG 27 2010
