SECTION 12
TOWNSHIP 21 SOUTH, RANGE 3 WEST, W.M.

The quantity of water diverted at the new point of diversion, together with that diverted at the old points of diversion, shall not exceed the quantity of water lawfully available at the original points of diversion.

When required by the Department, the water user shall install and maintain a headgate, an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the headgate and measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

Water shall be acquired from the same surface water source as the original point of diversion.

This certificate is issued to confirm an ADDITIONAL POINT OF DIVERSION approved by an order of the Water Resources Director entered February 20, 1997, at Special Order Volume 51, Page 101, approving Transfer Application 6861, and together with Certificate 87204, supersedes Certificate 708, State Record of Water Right Certificates.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.
