Prior to October 1, 2013, the water user shall install and maintain Weirs, Parshall Flumes, Submerged Orifices, or other suitable devices for measuring and recording the quantity of water diverted at the points of diversion. The type and plans of the measuring devices must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

Prior to October 1, 2015, the water user shall install fish screening, at the historic point of diversion (**New #3**), consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screen meets ODFW's criteria. The water user may withdraw water at the historic point of diversion without screening until October 1, 2015. The water user must obtain written approval from ODFW that the required screening was installed to the state's criteria. The water user shall maintain and operate the fish screen at the point of diversion consistent with ODFW's operational and maintenance standards.

This certificate is issued to confirm an HISTORIC CHANGE IN POINT OF DIVERSION approved by an order of the Water Resources Director entered **DEC 21 2011**, approving Transfer Application T- 11192, and supersedes Certificate 6851, State Record of Water Right Certificates.

WITNESS the signature of the Water Resources Director, affixed **DEC 21 2011**.
