The quantity of water diverted at the additional points of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.

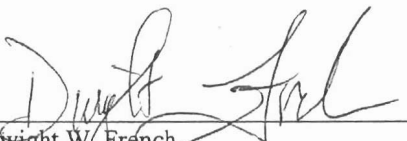

When required by the Department, the water user shall install and maintain in-line flow meter(s) or other suitable device(s) for measuring and recording the quantity of water appropriated. The type and plans of the measuring device(s) must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

Water may be applied to lands which are not specifically described above, provided the holder of the right complies with ORS 540.510(3).

This certificate is issued to confirm additional points of appropriation and change in place of use approved by an order of the Water Resources Director entered September 21, 2005, at Special Order Volume 67, Page 173, approving Transfer Application 9927, and supersedes Certificate 36316, State record of Water Right Certificates.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

Issued JAN 24 2012.
