The quantity of water diverted at the new points of appropriation (wells), together with that diverted at the old wells, shall not exceed the quantity of water available from the original points of appropriation.

When required by the Department the water user shall install in-line flow meters or other suitable devices for measuring and recording the quantity of water used. The type and plans of the measuring devices must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

This certificate is issued to confirm changes in point of appropriations and an additional points of appropriation approved by an order of the Water Resources Director entered June 10, 1994, at Special Order Volume 48, Page 203, approving Transfer Application 6449, and supersedes Certificate 34484, State record of Water Right Certificates.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.
