

STATE OF OREGON

COUNTY OF LANE

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

CITY OF VENETA  
PO BOX 458  
VENETA OR 97487

confirms the right to use the waters of WELL 9 in the Coyote Creek Basin for MUNICIPAL USES.

This right was perfected under Permit G-11551. The date of priority is FEBRUARY 18, 1992. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 1.11 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the well.

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
17 S	5 W	WM	31	SE NE	NORTH 4 DEGREES 39 MINUTES 56.88 SECONDS WEST, 502 FEET FROM E1/4 CORNER, SECTION 31

A description of the place of use is as follows:

**NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW**

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

If the well listed on this right displays a total static water-level decline of 25 or more feet over any period of years, as compared to the reference level, then the City shall discontinue use of, or reduce the rate or volume of withdrawal from, the well. Such action shall be taken until the water level recovers to above the 25-foot decline level or until the Department determines, based on the City's or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The reference level for water-level declines is **56.50** feet below land surface. The City shall in no instance allow excessive decline to occur within the aquifer as a result of use under this right.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge to determine the water level elevation in the well at all times. When required by the Department, the water user shall install and maintain a weir, meter, or other suitable measuring device and keep a complete record of the amount of ground water withdrawn.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described; however, water may be applied to lands which are not specifically described above, provided the holder of this right complies with ORS 540.510(3).

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

Issued July 17 2012.
