

STATE OF OREGON  
COUNTY OF UMATILLA  
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

STATE OF OREGON  
WATER RESOURCES DEPARTMENT

confirms the right to use the waters of COLUMBIA RIVER, tributary to PACIFIC OCEAN, for instream use for conservation, maintenance and enhancement of aquatic and fish life, wildlife, fish and wildlife habitat and other ecological values.

This right was perfected under Permit S-35522. The date of priority is AUGUST 18, 1970 plus one-minute. The amount of water to which this right is entitled is limited to an amount actually beneficially used, and shall not exceed 0.85 CUBIC FOOT PER SECOND, or its equivalent in case of rotation, measured at the point of diversion, from March 1 through October 31.

The description of the stream reach in which flows are to be maintained is as follows:

From the location of the diversion authorized previously under Certificate 53117, located approximately at:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
5 N	30 E	WM	8	SW NW	2920 FEET NORTH AND 150 FEET EAST FROM THE SW CORNER OF SECTION 8

to the mouth of the Columbia River at River Mile 0.0.

Water rights upstream of the original point of diversion shall not be subject to regulation for flows in excess of the quantities to which this instream water right is entitled at the original point of diversion.

Within the specified stream reach, the amount of water to which this right is entitled shall not exceed the quantity of water legally available at the original point of diversion. Stream channel losses and gains calculated based on available data and the use of water by senior appropriators will determine the amount of water to which this right is entitled downstream from the original point of diversion within the specified stream reach.

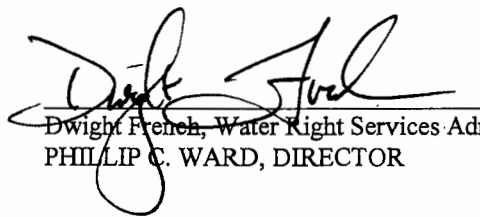

The instream right established by this transfer shall be in addition to instream water rights established pursuant to ORS 537.3451, 537.346, 537.348 or 537.470, unless otherwise specified by a subsequent order establishing a new instream water right.

The right is subject to all other terms and conditions of Certificate 53117 and any related decree, which pertains to instream rights.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

This certificate is issued to confirm an ALLOCATION OF CONSERVED WATER approved by an order of the Water Resources Director recorded in Special Order Volume 81, Page 706, approving Conserved Water Application CW-62. This certificate, together with the water conserved under CW-62 and Certificate 88066, supersedes Certificate 53117, State Record of Water Right Certificates.
