

STATE OF OREGON

COUNTY OF MULTNOMAH

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

JIM AND NANCY JOHNSON
 11175 NW SALTZMAN RD
 PORTLAND OR 97229

confirms the right to use the waters of WELL 1 (MULT 87885) in the BRONSON CREEK BASIN for IRRIGATION ON 4.9 ACRES, AGRICULTURE USE, STORAGE AND POND MAINTENANCE.

This right was perfected under Permit G-16286. The date of priority is MAY 24, 2007. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 40 GALLONS PER MINUTE (GPM), BEING 27.5 GPM FOR IRRIGATION USE, 7.0 GPM FOR AGRICULTURE USE, 5.5 GPM FOR POND MAINTENANCE NOT TO EXCEED 646.0 GALLONS PER DAY, measured at the well, AND 0.184 ACRE FOOT FOR STORAGE

The period of use is MARCH 1 through OCTOBER 31 for IRRIGATION USE, YEAR ROUND FOR AGRICULTURE USE, STORAGE, AND POND MAINTENANCE.

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
1 N	1 W	WM	22	NW NE	860 FEET SOUTH AND 525 FEET WEST FROM NE CORNER, NW NE , SECTION 22

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

A description of the place of use is as follows:

AGRICULTURE USE				
Twp	Rng	Mer	Sec	Q-Q
1 N	1 W	WM	22	NW NE

IRRIGATION USE					
Twp	Rng	Mer	Sec	Q-Q	Acres
1 N	1 W	WM	22	NW NE	4.9

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

STORAGE				
Twp	Rng	Mer	Sec	Q-Q
1 N	1 W	WM	22	NW NE

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or other suitable measuring device in good working order, shall keep a complete record of the amount of water used each month, and shall submit a report which includes the recorded water use measurements to the Department by December 1 of each year. Further, the Director may require the water user to report general water-use information, including the place and nature of use of water under the right.
 - B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- (1) The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well if annual water level measurements reveal any of the following events:
- (a) An average water level decline of three or more feet per year for five consecutive years; or
 - (b) A water level decline of 15 or more feet; or
 - (c) Hydraulic interference leading to a decline of 15 or more feet in any neighboring well providing water for senior exempt uses or wells covered by prior rights
- (2) The water user shall be responsible for complying with each of the following requirements for measuring water levels in the well.
- (a) A water level measurement shall be made each year during the period March 1 through March 31.
 - (b) All water level measurements shall be made by a qualified individual. Qualified individuals are certified water rights examiners, registered geologists, registered professional engineers, licensed land surveyors, licensed water well constructor, licensed pump installer, or the water user.
 - (c) Any qualified individual measuring a well shall use standard methods of procedure and equipment designed for the purpose of well measurement. The equipment used shall be well suited to the conditions of construction at the well. A list of standard methods of procedure and suitable equipment shall be available from the Department.
 - (d) The water user shall submit a record of the measurement to the Department on a form available from the Department. The record of measurement shall include both measurements and calculations, shall include a certification as to their accuracy signed by the individual making the measurements, and shall be submitted to the Department within 90 days from the date of measurement. The Department shall determine when any of the declines cited in section (1) are evidenced by the well measurement required in section (2)

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then

use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interference.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge to determine the water level elevation in the well at all times.

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to the agreement.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

Issued MAY 29 2013

Dwight W. French
Administrator, Water Right Services, for
Phillip C. Ward, Director
