

STATE OF OREGON

COUNTY OF LANE

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

BOB GORDON
39045 HENDRICKS PARK RD
SPRINGFIELD OR 97478

confirms the right to use the waters of A WELL HYDRAULICALLY CONNECTED TO AN UNNAMED SLOUGH, tributary to MCKENZIE RIVER, AND STORED WATER FROM THE WILLAMETTE BASIN PROJECT RESERVOIRS for IRRIGATION of 9.1 ACRES.

This right was perfected under Permit S-52815. The date of priority is NOVEMBER 29, 1991. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.10 CUBIC FOOT PER SECOND FROM LIVE FLOW (WELL) AND 6.0 ACRE FEET PER YEAR STORED WATER ONLY, or its equivalent in case of rotation, measured at the point of appropriation/diversion.

The point of diversion (appropriation) is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
17 S	1 W	WM	28	SE SW	1075 FEET NORTH AND 345 FEET WEST FROM SW CORNER, SECTION 28

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

Water from the well may be appropriated from March 1 through June 30, and October 1 through October 31; stored water may be appropriated from March 1 through October 31 or as may be further limited by the Bureau of Reclamation water service contract.

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	Acres
17 S	1 W	WM	28	SE SW	9.1

The quantity of water diverted at the new point of appropriation shall not exceed the quantity of water available from the original point of diversion described as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
17 S	1 W	WM	28	SE SW	1240 FEET NORTH AND 345 FEET WEST FROM S¼ CORNER, SECTION 28

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or other suitable measuring device in good working order.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

The use of water under this right is subject to the terms and conditions of Contract 6-07-10-W1108 between the Bureau of Reclamation and the water user, or a satisfactory replacement, a copy of which is on file in the records of the Water Resources Director.

The Director may require the water user to install a totalizing flow meter or other suitable measuring device at the point of appropriation. If the Director notifies the water user to install totalizing flow meter or other measuring device, the water user shall install such device specified by the Director within the period allowed in the notice. Once installed, the water user shall maintain the meter or measuring device in good working order and shall allow the Watermaster access to the meter or measuring device.

The well from which water is taken under this right shall be constructed so that the use of the well will affect the surface water source similarly to the use of the original authorized point of diversion.

The use of water under this right shall be subject to regulation consistent with other water rights from the surface water source and to all other applicable conditions and restrictions that existed at the original point of diversion.

The water user shall maintain and operate fish screening and by-pass devices as required by the Oregon Department of Fish and Wildlife to prevent fish from entering the diversion.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

This certificate is issued to confirm a change FROM A SURFACE WATER POINT OF DIVERSION TO A GROUND WATER POINT OF APPROPRIATION approved by an order of the Water Resources Director entered OCTOBER 4, 2010, at Special Order Volume 82, Page 1, approving Transfer Application 8623, and supercedes Certificate 83680, State record of Water Right Certificates.

If within five years after approval of the transfer, the Department finds that the transfer results in substantial or undue interference with an existing ground water right due to use of the well that would not have occurred in the absence of the transfer, the new point of appropriation shall be subordinate to the existing right injured by the transfer.

The original point of diversion of surface water shall not be retained as an additional or supplemental point of diversion under the transferred right. However, if within five years after approval of the transfer, the Department receives a transfer application to return to the last authorized surface water point of diversion, the application shall be approved.

Issued DEC 20 2013
