

STATE OF OREGON
 COUNTY OF YAMHILL
 CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

W M ADAIR
 21425 FULQUARTZ LANDING RD
 DUNDEE, OR 97115-9206

confirms the right to use the waters of A WELL in the Willamette River Basin for PRIMARY IRRIGATION of 22.0 ACRES AND SUPPLEMENTAL IRRIGATION OF 8.0 ACRES.

This right was perfected under Permit G-11988. The date of priority is JANUARY 31, 1994. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.375 CUBIC FOOT PER SECOND or its equivalent in case of rotation, measured at the well.

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
3 S	3 W	WM	35	SW SE	70	1060 FEET NORTH AND 1365 FEET WEST FROM SE CORNER, SECTION 35

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

The use of water for irrigation is limited to the period of March 1 through October 31 of each year.

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	DLC	Primary Acres	Supplemental Acres
3 S	3 W	WM	35	NE SE	70	4.1	2.4
3 S	3 W	WM	35	NW SE	70	2.2	
3 S	3 W	WM	35	SW SE	70	4.2	0.8
3 S	3 W	WM	35	SE SE	70	11.5	4.8

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The work shall be equipped with a useable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or measuring device in good working order.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

In the event of a request for a change in point of appropriation, an additional point of appropriation or alteration of the appropriation facility associated with this authorized diversion, the quantity of water allowed herein, together with any other right, shall not exceed the capacity of the facility at the time of perfection of this right.

The water user shall report a March static water level in the well to the Groundwater/Hydrology Section of the Water Resources Department by March 15 of each year. The measurement shall be made and calculations detailed by a certified water rights examiner, registered professional geologist, certified engineering geologist, professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board, licensed land surveyor or the water user/appropriator. Measurements and calculations shall be provided to the Department on forms provided by the Department and shall be certified as to their accuracy by the individual making the measurements.

Use of water from the well shall not be allowed if the well displays an (A) average water level decline of 3 or more feet per year for 5 consecutive years; or (B) a water level decline of 15 or more feet in fewer than 5 consecutive years; or (C) a water level decline of 25 or more feet; or (D) a hydraulic interference decline of 25 or more feet in any neighboring well with senior priority which provides water for an authorized use.

The Water Resources Department has determined that the initial water levels in the wells are those of the initial March report. That is the level from which the cited declines in (A), (B) and (C) above will be referenced. The reference level is 30 feet below ground surface.

The Director may require water level of pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued SEP 19 2014

Dwight French
Water Right Services Division Administrator, for
Director
Oregon Water Resources Department
