The right granted herein is limited to the amount which can be applied to beneficial use and shall not exceed 3.0 CFS measured at the point of diversion, or its equivalent in case of rotation with other water users, from Alder Creek.

Upon perfecting a subsequent portion of Permit S-36601, this certificate shall be cancelled and superseded with a certificate that authorizes a maximum rate of diversion at each point of diversion that is the lesser of: (a) the full rate of water authorized under Permit S-36601, (b) the maximum rate at which water can be diverted for beneficial use, or (c) the amount of beneficial use.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described; however, water may be applied to lands which are not specifically described above, provided the holder of this right complies with ORS 540.510(3).

This certificate is issued for a partial perfection of Permit S-36601 as described in OAR 690-320-0040 and by an order of the Water Resources Director entered January 28, 2016.
