

STATE OF OREGON

COUNTY OF MARION

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

PAUL KRAEMER
PO BOX 930
MOUNT ANGEL OR 97362

NORTHWEST FARM SERVICES FCLA
650 HAWTHORNE AVE SE, STE 210
SALEM OR 97301-5895

confirms the right to use the waters of A WELL in the ABIQUA CREEK BASIN for AGRICULTURAL USE and SUPPLEMENTAL IRRIGATION on 58.2 ACRES.

This right was perfected under Permit G-12185. The date of priority is APRIL 30, 1992. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 720 GALLONS PER MINUTE, measured at the well. The source of water allowed herein is limited to a confined aquifer with the Columbia River Basalts.

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
6 S	1 W	WM	23	NE NE	50	510 FEET SOUTH AND 5900 FEET WEST FROM NE CORNER, SECTION 24

The amount of water used for AGRICULTURAL USE is limited to a diversion of 0.15 cubic foot per second per acre. For the irrigation of **containerized nursery plants**, the amount of water diverted is limited to ONE-FORTIETH of one cubic foot per second (or its equivalent) and 5.0 acre feet per acre per year. For the irrigation of **in ground nursery plants** the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre per year. The use of water for AGRICULTURAL USE may be made at anytime of the year that the use is beneficial. For the irrigation of **any other crop**, the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre during the irrigation season of each year.

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
6 S	1 W	WM	24	NW NE	50	9.7
6 S	1 W	WM	24	SW NE	50	26.6
6 S	1 W	WM	24	NE NW	50	0.4
6 S	1 W	WM	24	SE NW	50	13.1
6 S	1 W	WM	24	NE SW	50	4.8
6 S	1 W	WM	24	NW SE	50	3.6

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge to determine the water level elevation in the well at all times.

1. Use of water from the well, as allowed herein, shall be controlled or shut off if the well displays:
 - a. An average water level decline of three or more feet per year for five consecutive years; or
 - b. A total water level decline of twenty-five or more feet; or
 - c. A hydraulic interference decline of twenty-five or more feet in any neighboring well providing water for senior exempt uses or wells covered by prior rights.
2. Measurement, recording and reporting conditions:
 - a. The water user shall maintain a meter or other suitable measuring device approved by the Director in good working order, shall keep a complete record of the amount of water used each month, and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the water user to report general water-use information, including the place and nature of use of water under the right.
 - b. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
3. The water user shall be responsible for complying with each of the following requirements for measuring water levels in the well.
 - a. Use of water from a new well shall not begin until an initial static water level in the well has been measured and submitted to the Department.
 - b. In addition to the measurement required in subsection (a) of this section, a water level measurement shall be made each year during the period March 1 through March 31.
 - c. All water level measurements shall be made by a qualified individual. Qualified individuals are certified water rights examiners, registered geologists, registered professional engineers, licensed land surveyors, licensed water well constructor, licensed pump installer, or the water user.
 - d. Any qualified individual measuring a well shall use standard methods of procedure and equipment designed for the purpose of well measurement. The equipment used shall be well suited to the conditions of construction at the well. A list of standard methods of procedure and suitable equipment shall be available from the Department.
 - e. The water user shall submit a record of the measurement to the Department on a form available from the Department. The record of measurement shall include both measurements and calculations, shall include a certification as to their accuracy signed by the individual making the measurements, and shall be submitted to the Department within 90 days from the date of measurement. The Department shall determine when any of the declines cited in section (1) are evidenced by the well measurement required in section (3).

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued MAY 10 2016.

Dwight French
Water Right Services Division Administrator, for
Thomas M. Byler, Director
Oregon Water Resources Department
