

STATE OF OREGON

COUNTY OF SHERMAN

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

JUSTESEN RANCHES
FRED JUSTESEN
59720 TWIN LAKES RD
GRASS VALLEY OR 97029

confirms the right to use the waters of A WELL IN FINNIGAN CREEK BASIN FOR MAINTENANCE OF THREE RESERVOIRS FOR RECREATION, WILDLIFE, AQUATIC LIFE, AND WETLAND ENHANCEMENT.

This right was perfected under Permit G-13824. The date of priority is AUGUST 23, 1999. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.58 CUBIC FOOT PER SECOND (CFS), FURTHER LIMITED TO 0.111 CFS IN LAKE EVELYN, 0.067 CFS IN JUDITH LAKE, AND 0.58 CFS IN JUSTESEN RESERVOIR, in any combination, or its equivalent in case of rotation, measured at the well.

The maximum volume of storage is JUSTESEN RESERVOIR, 148.0 ACRE-FEET (AF); JUDITH LAKE, 10.15AF; and LAKE EVELYN, 26.5 AF.

The period of use is year round.

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
3 S	16 E	WM	16	SE SE	1014 FEET NORTH AND 263 FEET WEST FROM SE CORNER, SECTION 16

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q
3 S	16 E	WM	16	SE NE
3 S	16 E	WM	16	NE SE
3 S	16 E	WM	16	SW SE
3 S	16 E	WM	16	SE SE
3 S	16 E	WM	21	NW NE
3 S	16 E	WM	21	SW NE

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or other suitable measuring device as approved by the Director in good working order.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interference.

Use of water under authority of this right may be regulated if analysis of data available after the right is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

The water user shall monitor and report the impact of water use under this right in accordance with the approved water level monitoring plan on file with the Department. If a well listed on this right (or replacement well) displays a total static water-level decline of 25 or more feet over any period of years, as compared to the reference level, then the water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s). Such action shall be taken until the water level recovers to above the 25-foot decline level or until the Department determines, based on the water user's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this right.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe, or the provision of other means to evacuate water when determined necessary by the Water Resources Director to satisfy prior downstream rights.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued MAY 23 2016.

Dwight French
Water Right Services Division Administrator, for
Thomas M. Byler, Director
Oregon Water Resources Department
