

STATE OF OREGON  
COUNTY OF WASHINGTON  
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

KEVIN AND CARRIE DUYCK  
37995 NW HARRINGTON RD  
CORNELIUS OR 97113

confirms the right to the use of water perfected under the terms of Permit G-16657. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-17027

SOURCE OF WATER: A WELL IN BLEDSOE CREEK BASIN

PURPOSE OR USE: WILDLIFE, IRRIGATION OF 69.1 ACRES AND SUPPLEMENTAL IRRIGATION OF 49.2 ACRES

MAXIMUM RATE: 0.22 CUBIC FOOT PER SECOND

PERIOD OF USE: IRRIGATION – MARCH 1 THROUGH OCTOBER 31

SUPPLEMENTAL IRRIGATION – MAY 1 THROUGH SEPTEMBER 30

WILDLIFE – OCTOBER 1 THROUGH JANUARY 1

DATE OF PRIORITY: MARCH 26, 2008

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
1 N	3 W	WM	5	NE NE	37	WELL 3 (NEW) - 1250 FEET SOUTH AND 910 FEET WEST FROM NE CORNER, SECTION 5

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second and 2.5 for each acre irrigated during the irrigation season of each year.

**NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW**

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

A description of the place of use is as follows:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
1 N	3 W	WM	4	NE NW	37	5.6
1 N	3 W	WM	4	NW NW	37	15.1

1 N	3 W	WM	5	SE NE	37

Measurement, recording and reporting conditions:

- A. The water user shall maintain the totalizing flow meter at each point of appropriation in good working order.
- B. The water user shall keep a complete record of the amount of water used each month, and shall submit an annual report which includes the recorded water use measurements to the Department by December 1 of each year. Further, the Director may require the water user to submit water use records more frequently and/or to report general water-use information, including the place and nature of use of water under the right.
- C. The water user shall allow the watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the watermaster shall request access upon reasonable notice.
- D. The Director may provide an opportunity for the water user to submit alternative measuring and reporting procedures for review and approval.

The combined quantity of water diverted at the new point of appropriation, together with that diverted at the old point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation as described as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
1 N	3 W	WM	4	NW NW	WELL 1 (ORIGINAL) - 920 FEET SOUTH AND 660 FEET EAST FROM NW CORNER, SECTION 4

The OWRD Well Identification Number (Well ID tag) L-11840 shall be permanently attached to the well. Well ID tag L-11840 shall be referenced in any correspondence regarding the well, including any reports of water use, water level, or pump test data.

- (1) Use of water from any well, as allowed herein, shall be controlled or shut off if the well displays:
  - (a) An average water level decline of three or more feet per year for five consecutive years; or
  - (b) A total water level decline of fifteen or more feet; or
  - (c) A hydraulic interference decline of fifteen or more feet in any neighboring well providing water for senior exempt uses or wells covered by prior rights.
  
- (2) The water user shall be responsible for complying with each of the following requirements for measuring water levels in the well.
  - (a) A water level measurement shall be made each year during the period March 1 through March 31.
  - (b) All water level measurements shall be made by a qualified individual. Qualified individuals are certified water rights examiners, registered geologists, registered professional engineers, licensed land surveyors, licensed water well constructor, licensed pump installer, or the water user.
  - (c) Any qualified individual measuring a well shall use standard methods of procedure and equipment designed for the purpose of well measurement. The equipment used shall be well suited to the conditions of construction at the well. A list of standard methods of procedure and suitable equipment shall be available from the Department.
  - (d) The water user shall submit a record of the measurement to the Department on a form available from the Department. The record of measurement shall include both measurements and calculations, shall include a certification as to their accuracy signed by the individual making the measurements, and shall be submitted to the Department within 90 days from the date of measurement. The Department shall determine when any of the declines cited in section (1) are evidenced by the well measurement required in this section.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interference.

The well(s) shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times.

The use may be restricted if the quality of downstream waters decreases to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to the agreement.

The Director may require water level or pump test results every ten years.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued           MAY 25 2016          

Dwight French  
Water Right Services Division Administrator, for  
Thomas M. Byler, Director  
Oregon Water Resources Department
