Water use measurement conditions:

- A. The water user shall maintain the totalizing flow meter or other suitable measuring device in good working order at each point of diversion.
- B. The water user shall allow the watermaster access to the meters or measuring devices; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine the water level elevation in the well at all times.

The water user shall maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described; however, water may be applied to lands which are not specifically described above, provided the holder of this right complies with ORS 540.510(3).

This certificate is issued to confirm a change in CHARACTER OF USE approved by an order of the Water Resources Director entered JULY 20, 2016, at Special Order Volume 101, Page 454, approving Transfer Application 12290, supersedes Certificate 91211, State record of Water Right Certificates.

Issued AUG 15 2017 .
