THIS CERTIFICATE ISSUED TO

SUNRIDGE ESTATES COMMUNITY WATER SERVICES DISTRICT
532 MAPLE ST
CENTRAL POINT OR 97502

confirms the right to the use of water perfected under the terms of Permit G-16950. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-15226

SOURCE OF WATER: TWELVE WELLS IN BEAR CREEK BASIN

PURPOSE OR USE: GROUP DOMESTIC USE EXPANDED FOR 36 HOMES AND IRRIGATION OF 2.0 ACRES

MAXIMUM RATE: 0.07 CUBIC FOOT PER SECOND (CFS), BEING 0.045 CFS FOR GROUP DOMESTIC EXPANDED FOR 36 HOMES AND 0.025 CFS FOR IRRIGATION OF 2.0 ACRES, FURTHER LIMITED TO 0.021 CFS FROM **ROBERTSON WELL**, 0.026 CFS FROM **SMITH WELL**, 0.07 CFS FROM **SPRING WELL**, 0.025 CFS FROM **MOORE WELL**, 0.07 CFS FROM **ROBINO WELL #3**, 0.015 CFS FROM **ROBINO WELL #2**, 0.016 CFS FROM **BERGSTROM WELL**, 0.008 CFS FROM **ROBINO WELL #1**, 0.003 CFS FROM **TRAPP WELL**, 0.046 CFS FROM **ENGLE WELL**, 0.014 CFS FROM **HARDER WELL**, AND 0.014 CFS FROM **WEST WELL**, IN ANY COMBINATION, OR ITS EQUIVALENT IN CASE OF ROTATION, MEASURED AT THE WELL.

PERIOD OF USE: YEAR ROUND FOR GROUP DOMESTIC EXPANDED AND MARCH 1 THROUGH OCTOBER 31 FOR IRRIGATION

DATE OF PRIORITY: SEPTEMBER 22, 2000

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

The combined quantity of water diverted at the new points of appropriation, together with that diverted at the old points of appropriation, shall not exceed the quantity of water lawfully available at the original points of appropriation.

Water use measurement condition from Permit Amendment T-11430:

- a. The water user shall maintain, in good working order, a totalizing flow meter or other suitable measuring device as approved by the Director at each point of appropriation.
- b. The water user shall allow the Watermaster access to the meter(s) or measuring device(s); provided however, where any meter(s) or measuring device(s) are located within a private structure, the Watermaster shall request access upon reasonable notice.

Water shall be acquired from the same aquifer as the original points of appropriation.

Measurement, recording and reporting conditions:

- A. The Director may require the water user to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the water user to install a meter or other measuring device, the water user shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the water user shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the water user to submit alternative measuring procedures for review and approval.
- B. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

Use of water under authority of this right may be regulated if analysis of data available after the right is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued SEP 08 2017.
