

STATE OF OREGON

COUNTY OF WASCO

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

MEL G. OMEG
2965 DRY HOLLOW LANE
THE DALLES, OR 97058

confirms the right to use the waters of WELL 2 in the THREEMILE CREEK Basin for IRRIGATION of 30.0 ACRES.

This right was perfected under Permit G-15672. The date of priority is MAY 21, 2003. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.38 CUBIC FOOT PER SECOND or its equivalent in case of rotation, measured at the well.

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
1 N	13 E	WM	33	NW NW	680 FEET SOUTH & 70 FEET EAST FROM NW CORNER, SECTION 33

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3 acre-feet per acre for each acre irrigated during the irrigation season of each year.

A description of the place of use is as follows:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
1 N	13 E	WM	28	SW SW	18.8
1 N	13 E	WM	33	NW NW	11.2

Measurement, recording and reporting conditions:

- A. The water user shall maintain a meter or other measuring device suitable to the Director in good working order, shall keep a complete record of the amount of water used each month and shall submit an annual report to the Department, or more frequently as may be required by the Director, by December 1 of each year that includes the recorded water use measurements. Further, the Director may require the water user to report general water-use information, including the place and nature of use of water under the right.
- B. The water user shall allow the watermaster access to the meter; provided however, where the meter is located within a private structure, the watermaster shall request access upon reasonable notice.

- (1) Use of water from the well, as allowed herein, shall be controlled or shut off if the well displays:
 - (A) An average water level decline of three or more feet per year for five consecutive years; or
 - (B) A total water level decline of 15 or more feet; or
 - (C) A hydraulic interference decline of 15 or more feet in any neighboring well providing water for senior exempt uses or wells covered by prior rights.
- (2) For the purpose of determining declines, a reference level of 216 feet below land surface shall be used.
- (3) The water user is responsible for complying with each of the following requirements for measuring water levels in the well.
 - a) A water level measurement shall be made each year during the period March 1 through March 31.
 - b) All water level measurements shall be made by a qualified individual. Qualified individuals are certified water right examiners, registered geologists, registered professional engineers, licensed land surveyors, licensed water well constructor, licensed pump installer, or the appropriator.
 - c) Any qualified individual measuring a well shall use standard methods of procedure and equipment designed for the purpose of well measurement. The equipment used shall be well suited to the conditions of construction at the well. A list of standard methods of procedure and suitable equipment shall be available from the Department.
 - d) The appropriator shall submit a record of the measurement to the Department on a form available from the Department. The record of measurement shall include both measurements and calculations, shall include a certification as to their accuracy signed by the individual making the measurements, and shall be submitted to the department within 90 days from the date of measurement. The Department shall determine when any of the declines cited in section (1) are evidenced by the well measurement required in section (3).

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interference.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge to determine the water level elevation in the well at all times.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

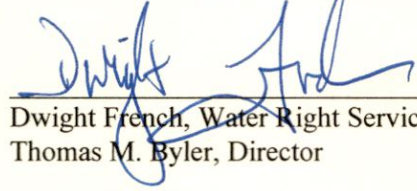

The use of water shall be limited when it interferes with any prior surface or ground water rights.

This certificate describes the portion of Certificate 87561 NOT modified by an order of the Water Resources Director recorded in Special Order Volume 107, Page 649 approving a partial cancellation. This certificate supersedes Certificate 87561.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed February 6th, 2013.

Dwight French, Water Right Services Administrator, for
Thomas M. Byler, Director
