

STATE OF OREGON
 COUNTY OF KLAMATH
 CERTIFICATE OF WATER RIGHT
 FOR PARTIAL PERFECTION

THIS CERTIFICATE ISSUED TO

CITY OF KLAMATH FALLS
 PO BOX 237
 KLAMATH FALLS OR 97601

confirms the right to the use of water perfected under the terms of Permit G-13109. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-12663

SOURCE OF WATER: WOCUS WELL WITHIN THE KLAMATH BASIN

PURPOSE OR USE: MUNICIPAL USE

MAXIMUM RATE: 1.67 CUBIC FEET PER SECOND (CFS), FURTHER LIMITED TO THE RATE ALLOWED UNDER KLAMATH BOARD OF COMMISSIONERS CONDITIONAL LAND USE PERMIT CUP 63-91 OR AS AMENDED

PERIOD OF USE: YEAR ROUND

DATE OF PRIORITY: SEPTEMBER 23, 1991

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
38 S	9 E	WM	7	SW SE	WOCUS WELL - 332 FEET NORTH AND 483 FEET EAST FROM S1/4 CORNER, SECTION 7

The amount of water used under this right, together with the amount secured under any other right existing for the same lands, is limited to a total diversion of 52.14 cubic feet per second – or – a lesser amount if delineated in the Water Management and Conservation Plan.

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	Twp	Rng	Mer	Sec	Q-Q
38 S	8 E	WM	25	NW NW	38 S	8 E	WM	25	SE 1/4
38 S	8 E	WM	25	SW NW	38 S	8 E	WM	25	SW 1/4

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or other suitable measuring device approved by the Director in good working order, shall keep a complete record of the amount of water used each month, and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the water user to report general water-use information, including the place and nature of use of water under the right.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

If a well measured under this right displays a total static water-level decline of 25 or more feet over any period of years, as compared to the reference level, then the water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s). Such action shall be taken until the water level recovers to above the 25-foot decline level or until the Department determines, based on the water user's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this right.

If substantial interference with a senior water right occurs due to withdrawal of water from the well authorized under this right, then use of water from the well shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interference.

The use of water under this right shall be in compliance with CUP 63-91, or as amended, issued by Klamath County, a copy of which must be on file in the records of the Water Resources Department.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any acknowledged land use plan. The City of Klamath Falls shall adhere to the conditional use permit #63-91, or as amended, issued by Klamath County.

Use of water under authority of this right may be regulated if analysis of data available after the right is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described; however, water may be applied to lands which are not specifically described above, provided the holder of this right complies with ORS 540.510(3).

This certificate is issued for a partial perfection of Permit G-13109 as described in OAR 690-320-0040 and by an order of the Water Resources Director entered May 9, 2018 at Special Order Volume 108, Page 97.

Issued MAY 9 2018.

Dwight French
Water Right Services Division Administrator, for
Thomas M. Byler, Director
Oregon Water Resources Department
