NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

The following conditions apply to the additional point of appropriation to original Well 6, being Well 5:

The combined quantity of water diverted at the new additional point of appropriation, Well 5, together with that diverted at the original point of appropriation, Well 6, shall not exceed the quantity of water lawfully available at Well 6 (2.2 CFS).

Water shall be acquired from the same aquifer as the original point of appropriation, Well 6.

Water use measurement conditions:

- a. The water user shall maintain the totalizing flow meters or measuring devices, at each new point of appropriation, in good working order.
- b. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

The following conditions apply to the additional point of appropriation to original Well 7, being Well 5:

The combined quantity of water diverted at the new additional point of appropriation (Well 5), together with that diverted at Well 7, shall not exceed the maximum rate and duty allowed for Well 7 under this right.

Water shall be acquired from the Sand and Gravel Aquifer (SGA), the same aquifer developed by the original points of appropriation.

The following conditions apply to the additional point of appropriation to original Well 6 and original Well 7, being Well 8:

The quantity of water diverted at the new point of appropriation (well), together with the quantity diverted at the old points of appropriation, shall not exceed the quantity of water lawfully available from the original points of appropriation.

Water shall be acquired from the same aquifer as the original points of appropriation.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine the water level elevation in the well at all times.

The water user shall maintain weirs, meters, or other suitable measuring devices, and shall keep a complete record of the amount of ground water withdrawn.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described; however, water may be applied to lands which are not specifically described above, provided the holder of this right complies with ORS 540.510(3).

Issued MAY 11 2018 .
