

STATE OF OREGON
 COUNTY OF WASHINGTON
 CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

TIGARD-TUALATIN SCHOOL DISTRICT 23 J
 6960 SW SANDBURG ST
 TIGARD, OR 97223-8039

confirms the right to use the waters of A WELL in the SAUM CREEK BASIN for IRRIGATION of 33.3 ACRES.

This right was perfected under Permit G-11483. The date of priority is MAY 22, 1991. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 186.8 GALLONS PER MINUTE or its equivalent in case of rotation, measured at the well.

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
2 S	1 W	WM	35	NW NE	390 FEET SOUTH AND 950 FEET EAST FROM N1/4 CORNER, SECTION 35

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

A description of the place of use is as follows:

IRRIGATION OF 33.3 ACRES OF ATHLETIC FIELDS AND LANDSCAPING WITHIN THE FOLLOWING QUARTER QUARTERS				
Twp	Rng	Mer	Sec	Q-Q
2 S	1 W	WM	35	NE NE
2 S	1 W	WM	35	NW NE
2 S	1 W	WM	35	SW NE
2 S	1 W	WM	35	SE NE

The water user shall install a meter or other suitable measuring device approved by the Director, and shall submit an annual report of water used to the Department.

Use of water from the well shall be controlled or shut off if limits specified in the right to protect the resource from depletion and prior appropriators from interference are exceeded.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

The water user shall measure the water levels in the well each year between March 1 and March 31 (spring high water level), and submit the data to the Department within 90 days of measurement. Water level measurements shall be made by a Certified Water Right Examiner, Licensed Water Well Driller, Licensed Pump Installer, Registered Geologist, Licensed Land Surveyor, Registered Professional Engineer, or the water user.

Use of water from the well shall not be allowed if the well displays an (A) average water level decline of 3 or more feet per year for 5 consecutive years; or (B) a water level decline of 15 or more feet in fewer than 5 consecutive years; or (C) a water level decline of 25 or more feet; or (D) a hydraulic interference decline of 25 or more feet in any neighboring well with senior priority which provides water for an authorized use.

The Water Resources Department has determined that the initial water levels in the wells are those of the initial March report. That is the level from which the cited declines in (A), (B) and (C) above will be referenced. The reference level is 165 below ground surface.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a useable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

When required by the Department, the water user shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued JUN 1 2018

Dwight French
Water Right Services Division Administrator, for
Thomas M. Byler, Director
Oregon Water Resources Department
