

STATE OF OREGON
COUNTY OF KLAMATH
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

GLEN AND REBECCA HALVORSON
17000 W LANGELL VALLEY RD
BONANZA OR 97623

confirms the right to the use of water perfected under the terms of Permit G-12455. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the well(s). The specific limits and conditions of the use are listed below.

SOURCE OF WATER: TWO WELLS IN THE LOST RIVER BASIN

PURPOSE OR USE: IRRIGATION OF 62.6 ACRES AND SUPPLEMENTAL IRRIGATION OF 160.8 ACRES

MAXIMUM RATE: 0.74 CUBIC FOOT PER SECOND

PERIOD OF USE: APRIL 15 TO OCTOBER 15

DATE OF PRIORITY: APRIL 20, 1992

The wells are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
40 S	13 E	WM	26	NW NE	WELL 1 (ORIGINAL) - 172 FEET SOUTH AND 2037 FEET WEST FROM NE CORNER OF SECTION 26
40 S	13 E	WM	26	SW NE	WELL 2 (ADDITIONAL) - 30 FEET NORTH AND 1180 FEET EAST FROM C1/4 OF SECTION 26

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

A description of the place of use is as follows:

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

The following conditions apply to the original Well 1:

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or other suitable measuring device approved by the Director in good working order, shall keep a complete record of the amount of water used each month, and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the water user to report general water-use information, including the place and nature of use of water under the right.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

The water user shall obtain a static water-level measurement for each well during March and October of each year and report the measurement to the Department. The measurement shall be made by a certified water rights examiner, registered geologist, licensed land surveyor or registered professional engineer, licensed water well constructors, licensed well drillers or the water user/appropriator. Water levels shall be reported as depth-to-water below ground level in feet and inches or to one-hundredth of a foot and shall be accompanied by supporting calculations. The water user shall report the static water level(s) in the well(s) to the Groundwater/Hydrology Section of the Water Resources Department by April 15 and November 15, respectively, of each year.

The following conditions apply to both wells:

Measurement, recording and reporting conditions:

- A. The water user shall maintain, in good working order, a totalizing flow meter or other suitable measuring device as approved by the Director at each point of appropriation (new and existing).
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where any meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge to determine the water level elevation in the well at all times.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interference.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is limited to any deficiency in the available supply of any prior existing for the same land.

The Director may require water level or pump test results every ten years.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plans.

The lands described herein as supplemental irrigation may, due to the status of the inchoate underlying right, be exercised for primary irrigation, provided the total quantity diverted from all sources of supply does not exceed the limitation allowed herein.

The quantity of water diverted at the additional point of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available from the original point of appropriation.

Water shall be acquired from the same aquifer (water source) as the original point of appropriation.

The right to the use of the water without waste for the above purpose is restricted to beneficial use on the lands or place of use described.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

This certificate is issued to confirm an ADDITIONAL POINT OF APPROPRIATION and a change in PLACE OF USE approved, superseded, and corrected by an order of the Water Resources Director entered MAY 25, 2018, at Special Order Volume 108, Page 345, approving Transfer Application 12348, supersedes Certificate 87661, State record of Water Right Certificates.
