Water shall be acquired from the same aquifer as the original point of appropriation.

When required by the Department the water user shall install an in-line flow meter or other suitable measuring device for measuring and recording the quantity of water used. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

This certificate describes that portion of water right Certificate 81168, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered JUL 13 2018, approving Transfer Application T-12842.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed JUL 13 2018.

Dwight French, Water Right Services Administrator, for  
Thomas M. Byler, Director  
Oregon Water Resources Department
