

STATE OF OREGON

COUNTY OF LINN

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

DAVID AND KATHRYN ROGERS
REVOCABLE LIVING TRUST
26366 GAP RD
BROWNSVILLE OR 97327

NORTHWEST FARM CREDIT SERVICES FLCA
PO BOX 72300
SPRINGFIELD OR 97457

confirms the right to store water perfected under the terms of Permit R-15055. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-87865

SOURCE OF WATER: RUNOFF AND DRAIN DITCH, TRIBUTARIES OF COURTNEY CREEK

STORAGE FACILITY: RESERVOIR 100-1, RESERVOIR 100-2, RESERVOIR 100-3, RESERVOIR 100-4, AND RESERVOIR 100-5

PURPOSE OR USE OF THE STORED WATER: LIVESTOCK, IRRIGATION, AGRICULTURE, RECREATION, FISH LIFE, WILDLIFE, POLLUTION ABATEMENT, AND WETLAND ENHANCEMENT

MAXIMUM VOLUME: 43.9 ACRE-FEET (AF) EACH YEAR, BEING 3.7 AF IN RESERVOIR 100-1, 24.5 AF IN RESERVOIR 100-2, 8.0 AF IN RESERVOIR 100-3, 2.2 AF IN RESERVOIR 100-4, AND 5.5 AF IN RESERVOIR 100-5

WATER MAY BE APPROPRIATED FOR STORAGE DURING THE PERIOD: NOVEMBER 1 THROUGH JUNE 30

DATE OF PRIORITY: FEBRUARY 14, 2013

The dams are located as follows:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
14 S	3 W	WM	12	NE NE	52	RESERVOIR 100-1 - 1260 FEET SOUTH AND 1280 FEET WEST FROM NE CORNER, SECTION 12
14 S	3 W	WM	12	SW NE	52	RESERVOIR 100-2 - 1950 FEET SOUTH AND 1550 FEET WEST FROM NE CORNER, SECTION 12
14 S	3 W	WM	12	SW NE	52	RESERVOIR 100-5 - 2060 FEET SOUTH AND 1590 FEET WEST FROM NE CORNER, SECTION 12
14 S	3 W	WM	12	SE NE	52	RESERVOIR 100-3 - 1980 FEET SOUTH AND 610 FEET WEST FROM NE CORNER, SECTION 12
14 S	3 W	WM	12	SE NE	52	RESERVOIR 100-4 - 2120 FEET SOUTH AND 850 FEET WEST FROM NE CORNER, SECTION 12

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

The area submerged by this reservoir is as follows:

Twp	Rng	Mer	Sec	Q-Q	DLC
14 S	3 W	WM	12	NE NE	52
14 S	3 W	WM	12	SW NE	52
14 S	3 W	WM	12	SE NE	52

Measurement, recording and reporting:

- A. The water user shall maintain in good working order, a staff gage that measures the entire range and stage between full reservoir level and dead pool storage in the reservoirs.
- B. The water user shall allow the watermaster access to the device; provided however, where any device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water stored, and may require the water user to report water storage on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water-use information, the periods of water use and the place and nature of use of water under the right.
- D. The Director may provide an opportunity for the water user to submit alternative measuring and reporting procedures for review and approval.

The water user shall not release stored water from the reservoirs July 1 through October 31 unless determined necessary by the Water Resources Department to satisfy prior downstream rights.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe (with a minimum diameter of 8 inches for any in-channel reservoir). This requirement may be waived if the Department determines other means have been provided to evacuate water when necessary.

The water user shall pass all live flow outside the storage season described above.

The Director may require the user to measure inflow and outflow, above and below the reservoir respectively, to ensure that live flow is not impeded outside the storage season. Measurement devices and their implementation must be acceptable to the Director, and the Director may require that data be recorded on a specified periodic basis and reported to the Department annually or more frequently.

This right allows an annual appropriation (not to exceed the specified volume). This right does not provide for the appropriation of water for out-of-reservoir uses, the maintenance of the water level or maintaining a suitable freshwater condition. If any water is used for out-of-reservoir purposes, a secondary water right is required. If any additional live flow is to be appropriated to maintain either the water level or a suitable freshwater condition, an additional water right is required.

Notwithstanding that Oregon Department of Fish and Wildlife has made a determination that fish screens and/or by-pass devices are not necessary at this time, the water user may be required in the future to install, maintain, and operate fish screening and/or by-pass devices to prevent fish from entering the diversion, and to provide adequate upstream and downstream passage for fish.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

The use may be restricted if the quality of the source stream or downstream waters decreases to the point that those waters no longer meet state and federal water quality standards due to reduced flows.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to store water for the above purpose is restricted to beneficial use at the place of use described.

Issued SEP 28 2018

Dwight French
Water Right Services Division Administrator, for
Thomas M. Byler, Director
Oregon Water Resources Department
