North Unit Irrigation District (NUID) shall maintain and operate the existing measurement device at the point of diversion on the Deschutes River and shall make such improvements as may be required by the Department.

The water user shall allow the Watermaster access to the meters or measuring devices. Where a meter is located within a private structure, the Watermaster shall be granted access upon reasonable notice.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

The use of water under this right was perfected under CW-75. For purposes of future transfers, it is not the intention to permanently layer this water right with any other right existing for the same lands. Therefore, this water right is not subject to the layered right restrictions contained in ORS 540.510(1), provided the holder of this right remains the applicant of record identified in Special Order Volume 91, Page 331.

This certificate is issued to confirm an ALLOCATION OF CONSERVED WATER approved by an order of the Water Resources Director entered SEPTEMBER 24, 2013 and recorded in Special Order Volume 91, Page 331 approving Conserved Water Application CW-75.

This Certificate is issued to correct a scrivener's error in the sources of water, and supersedes Certificate 93405.

Issued OCT 19 2018

Dwight French  
Water Right Services Division Administrator, for  
Thomas M. Byler, Director  
Oregon Water Resources Department
