A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

The combined quantity of water diverted at the new point of diversion (POD 2), together with that diverted at the old point of diversion (POD 1), shall not exceed the quantity of water lawfully available at the original point of diversion (POD 1).

Measurement, recording and reporting conditions:

The water user shall operate and maintain an approved fish screen at the new point of diversion. If Oregon Department of Fish and Wildlife (ODFW) determines the screen is not functioning properly, and is unsuccessful with working with the water user to meet ODFW standards, ODFW may request that Oregon Water Resources Department (OWRD) regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.
