STATE OF OREGON

COUNTY OF KLAMATH

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

TRACEY LYON 23444 HWY 50 MERRILL OR 97633

confirms the right to the use of water perfected under the terms of Permit G-17847. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-15541

SOURCE OF WATER: TWO WELLS IN LOST RIVER BASIN

PURPOSE OR USE: IRRIGATION OF 326.98 ACRES

MAXIMUM RATE: 4.0 CUBIC FEET PER SECOND

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31

DATE OF PRIORITY: JUNE 21, 2001

The wells are located as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot	Measured Distances
41 S	11 E	WM	11	NW SW	5	WELL 1 - 355 FEET SOUTH AND 100 FEET EAST FROM W1/4 CORNER, SECTION 11
41 S	11 E	WM	11	NW SE		WELL 2 - 175 FEET SOUTH AND 2660 FEET EAST FROM W1/4 CORNER, SECTION 11

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acrefeet for each acre irrigated during the irrigation season of each year.

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot	Acres
41 S	11 E	WM	11	NE SW	6 .	38.14
41 S	11 E	WM	11	NW SW	4	1.22
41 S	11 E	WM	11	NW SW	5	32.94
41 S	11 E	WM	11	SW SW		19.46
41 S	11 E	WM	11	SE SW	11	27.02
41 S	11 E	WM	11	SE SW	12	6.61
41 S	11 E	WM	11	NE SE	9	34.99
41 S	11 E	WM	11	NE SE	14	0.25
41 S	11 E	WM	11	NW SE		35.62

Twp	Rng	Mer	Sec	Q-Q	GLot	Acres
41 S	·11 E	WM	11	SW SE	10	14.89
41 S	11 E	WM	11	SW SE	13	23.22
41 S	11 E	WM	11	SE SE	9	4.21
41 S	11 E	WM	11	SE SE	14	32.73
41 S	11 E	WM	12	NE SW	11	14.75
41 S	11 E	WM	12	NE SW	16	15.52
41 S	11 E	WM	12	NW SW	12	24.87
41 S	11 E	WM	12	NW SW	17	0.54

Measurement, recording and reporting conditions:

- A. The water user shall maintain the totalizing flow meter or other suitable measuring device approved by the Director in good working order at each point of appropriation, shall keep a complete record of the amount of water used each month, and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the water user to report general water-use information, including the place and nature of use of water under the right.
- B. The water user shall allow the watermaster access to the meters or measuring devices; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

To monitor the effect of water use from the well(s) authorized under this right, the water user may be required to measure additional water levels if required by the Director. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement. The additional measurements may be required in a different month. If the measurement requirement is stopped, the Director may restart it at any time.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- (A) Identify each well with its associated measurement; and
- (B) Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- (C) Specify the method used to obtain each well measurement; and
- (D) Certify the accuracy of all measurements and calculations submitted to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s) if annual water level measurements reveal any of the following events:

- (A) An average water level decline of three or more feet per year for five consecutive years; or
- (B) A water level decline of 15 or more feet in fewer than five consecutive years; or
- (C) A water level decline of 25 or more feet; or
- (D) Hydraulic interference leading to a decline of 25 or more feet in any neighboring well with senior priority.

The reference levels against which any future measurements will be compared are 59.0 feet below land surface for Well 1 and 49.5 feet below land surface for Well 2.

The period of non-use or restricted use shall continue until the water level rises above the decline level which triggered the action or until the Department determines, based on the water user's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this right. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interference.

The combined quantity of water diverted at the new points of appropriation, shall not exceed the quantity of water lawfully available at the original points of appropriation described as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
41 S	11 E	WM	11	NW SW	WELL 1 - 700 FEET SOUTH AND 400 FEET
					EAST FROM W1/4 CORNER, SECTION 11
41 S	11 E	WM	11	NE SE	WELL 2 - 1000 FEET SOUTH AND 200 FEET
1					WEST FROM W1/4 CORNER, SECTION 11

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times.

The Director may require water level or pump test results every ten years.

The combined quantity of water diverted at the new points of appropriation, shall not exceed the quantity of water lawfully available at the original points of appropriation.

Water shall be acquired from the same aquifer as the original points of appropriation.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

This certificate is issued to correct a scrivener's error in the static water level measurement condition and supersedes Certificate 93742.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued

MAY **3 1** 2019

Dwight French-

Water Right Services Division Administrator, for

Thomas\M/Byler, Director

Oregon Water Resources Department
