The water user shall operate and maintain an approved fish screen at the new point of diversion. If Oregon Department of Fish and Wildlife (ODFW) determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

This certificate describes that portion of the water right confirmed by Certificate 91006, State Record of Water Right Certificates, reduced in rate and duty by the provisions of an order of the Water Resources Director entered January 30, 2018, approving Allocation of Conserved Water Application CW-98, and together with Certificates 94863, 94867, and the Applicant's portion of conserved water under CW-98, supersedes Certificate 91006.
