

STATE OF OREGON
COUNTY OF DESCHUTES
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

EAGLE CREST MASTER ASSOCIATION
ATTN: ECMA PRESIDENT
PO BOX 1215
REDMOND OR 97756

confirms the right to the use of water of WELL 2A, WELL 2B, AND WELL 4 in the Deschutes Basin for QUASI-MUNICIPAL USES.

This right was perfected under Permit G-10530. The date of priority is MAY 20, 1985. The amount of water used to which this right is entitled is limited to the amount actually used beneficially, and shall not exceed 756 GALLONS PER MINUTE (GPM), FURTHER LIMITED TO 570 GPM FROM WELL 2A, 600 GPM FROM WELL 2B, AND 546 GPM FROM WELL 4, NOT TO EXCEED A CUMULATIVE TOTAL OF 756 GPM IN ANY COMBINATION FROM WELL 2A, WELL 2B, AND WELL 4, or its equivalent in the case of rotation, measured at the wells.

The wells are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
15 S	12 E	WM	23	NE NE	WELL 2A (ORIGINAL) - 491 FEET SOUTH AND 2055 FEET EAST FROM N1/4 CORNER, SECTION 23
15 S	12 E	WM	23	NE NE	WELL 2B (ADDITIONAL) - 511 FEET SOUTH AND 2055 FEET EAST FROM N1/4 CORNER, SECTION 23
15 S	12 E	WM	23	NW NE	WELL 4 (ADDITIONAL) - 64 FEET SOUTH AND 692 FEET EAST FROM N1/4 CORNER, SECTION 23

A description of the place of use to which this right is appurtenant is as follows:

QUASI-MUNICIPAL
WITHIN THE EAGLE CREST SERVICE AREA

Water use measurement conditions:

- A. The water user shall maintain the totalizing flow meter or another suitable measuring device as approved by the Director at each point of appropriation in good working order.
- B. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

The water user shall obtain a static water-level measurement for each well during March of each year and report the measurement to the Department within thirty days. The measurement shall be made by a certified water rights examiner, registered professional geologist, certified engineering geologist, professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board. Water levels shall be reported as depth-to-water below ground level and shall be accompanied by supporting calculations. If a well listed on this right displays a total static water-level decline of 10 or more feet over any period of years, when compared to the reference level, then the water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the wells. Such action shall be taken until the water level recovers to above the 10-foot decline level or until the Department determines, based on the water user's or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The reference level for water-level declines shall be the first or second annual, whichever is higher, measurement taken after water use begins under the terms of this right. The water user shall in no instance allow excessive decline to occur within the aquifer as a result of use under this right.

The quantity of water diverted at the additional points of appropriation, together with that diverted at the original points of appropriation, shall not exceed the quantity of water lawfully available from the original points of appropriation described as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
15 S	12 E	WM	23	NE NE	WELL 2A (ORIGINAL) - 491 FEET SOUTH AND 2055 FEET EAST FROM N1/4 CORNER, SECTION 23
15 S	12 E	WM	23	NW NE	WELL 3 (ORIGINAL) - 104 FEET SOUTH AND 696 FEET EAST FROM N1/4 CORNER, SECTION 23

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine the water level elevation in the wells at all times. The water user shall maintain a weir, meter, or other suitable measuring device and keep a complete record of the amount of ground water withdrawn.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

Water may be applied to lands which are not specifically described above, provided the holder of this right complies with ORS 540.510(3).

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

This certificate is issued to confirm changes in ADDITIONAL POINTS OF APPROPRIATION and PLACE OF USE approved by an order of the Water Resources Director entered JULY 31, 2018, at Special Order Volume 108, Page 966, approving Transfer Application T-12725, supersedes Certificate 90564, State Record of Water Right Certificates.

Issued MAY 26 2020

Dwight French
 Water Right Services Division Administrator, for
 Thomas M. Byler, Director
 Oregon Water Resources Department
