The quantity of water diverted at the new point of diversion, together with that diverted at the old point of diversion, shall not exceed the quantity of water lawfully available at the original point of diversion.

When required by the Department, the water user shall install and maintain a headgate, an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the headgate and measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

The water user shall maintain a fish screen or fish by-pass device.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

This certificate describes the portion of Certificate 94682 NOT modified by an order of the Water Resources Director recorded in Special Order Volume 117, Page 58,59 approving a partial cancellation. This certificate supersedes Certificate 94682.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

WITNESS the signature of the Water Resources Director, affixed JUL 14 2020.
