*Supplemental Information

When required by the Department, the water user shall install and maintain a headgate, an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the headgate and measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

When required by the Department, the water user or irrigation district shall operate and maintain the headgate and measuring device, as needed. The water user or irrigation district shall report total flow figures when requested by the Watermaster. The Watermaster may operate the headgate and monitor the accuracy of the measuring device, as needed.

Water Right Actions Incorporated by this Certificate

The issuance of this certificate incorporates modifications made to the originating Certificate 85975 authorized by the orders listed in Table 1, below.

In addition, this Certificate includes the portions of the originating water right Certificate 85976, NOT modified by the provisions of orders listed in Tables 1 and 2, above.

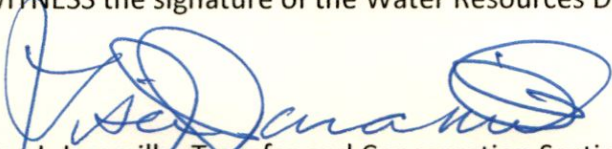

This certificate supersedes Certificate 85976.

The issuance of this superseding certificate does not confirm portions of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described and is subject to all other conditions and limitations contained in said permit.
