

STATE OF OREGON
COUNTY OF CLACKAMAS
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ORAL HULL FOUNDATION FOR THE BLIND, INC.
PO BOX 157
SANDY OR 97055

confirms the right to the use of water perfected under the terms of Permit G-11186. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-12281

SOURCE OF WATER: TWO WELLS IN SANDY RIVER BASIN

PURPOSE or USE: COMMERCIAL USE

MAXIMUM RATE: 0.201 CUBIC FOOT PER SECOND (CFS), FURTHER LIMITED TO 0.101 CFS FROM WELL 1 AND 0.1 CFS FROM WELL 2

DATE OF PRIORITY: NOVEMBER 5, 1990

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
2 S	5 E	WM	17	SW NE	Well 1 (ORIGINAL) - 890 FEET SOUTH AND 185 FEET EAST FROM CENTER N1/16 CORNER, SECTION 17
2 S	5 E	WM	17	SW NE	Well 2 (ADDITIONAL) - 860 FEET SOUTH AND 660 FEET EAST FROM CENTER N1/16 CORNER, SECTION 17

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q
2 S	5 E	WM	17	NW NE
2 S	5 E	WM	17	SW NE

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times.

The Director may require water level or pump test results every ten years.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Extension of Time Conditions

Sandy Basin Groundwater Condition

- (a) Use of water from the well, as allowed herein, shall be regulated if the well displays:
 - (i) An average water level decline of three or more feet per year for five consecutive years; or
 - (ii) A total water level decline of fifteen or more feet; or
 - (iii) A hydraulic interference decline of fifteen or more feet in any neighboring well providing water for senior exempt uses or wells covered by prior rights.
- (b) The water user shall maintain a meter or other measuring device suitable to the Director, and shall keep a complete record of water uses.
- (c) The water user shall be responsible for complying with each of the following requirements for measuring water levels in the well.
 - (i) A water level measurement shall be made each year at the time of spring high water during the period March 15 through April 15.
 - (ii) All water level measurements shall be made by a qualified individual. Qualified individuals include certified water rights examiners, licensed water well drillers, registered geologists, registered professional engineers, registered land surveyors, licensed well constructor, pump installer licensed by the Construction Contractors Board, or the permit holder/appropriator.
 - (iii) Any qualified individual measuring a well shall use standard methods of procedure and equipment designed for the purpose of well measurement. The equipment used shall be well suited to the conditions of construction at the well. A list of standard methods of procedure and suitable equipment shall be available from the Department.
 - (iv) The water user/appropriator shall submit a record of the measurement to the Department on a form available from the Department. The record of measurement shall include both measurements and calculations, shall include a certification as to their accuracy signed by the individual making the measurements, and shall be received not later than 30 days from the date of measurement. The Department shall determine when any of the declines cited in section (a) are evidenced by the well measurement required in section (c).

Permit Amendment Conditions:

1. The combined quantity of water diverted at the new point of appropriation, together with that diverted at the old point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
2. Water shall be acquired from the same ground water source as the original point of appropriation.
3. Use of water from the wells, as allowed herein, shall be regulated if the wells display:
 - a. An average water level decline of three or more feet per year for five consecutive years; or
 - b. A total water level decline of fifteen or more feet; or
 - c. A hydraulic interference decline of fifteen or more feet in any neighboring well providing water for senior exempt uses or wells covered by prior rights.

4. The appropriator shall install meter or other measuring devices suitable to the Director, and shall keep a complete record of water uses.
5. The appropriator shall be responsible for complying with each of the following requirements for measuring water levels in the wells.
 - a. A water level measurement shall be made each year at the time of spring high water during the period March 15 through April 15.
 - b. All water level measurements shall be made by a qualified individual. Qualified individuals include certified water rights examiners, licensed water well drillers, registered geologists, registered professional engineers, registered land surveyors, licensed well constructor, pump installer licensed by the Construction Contractors Board, or the permit holder/appropriator.
 - c. Any qualified individual measuring the wells shall use standard methods of procedure and equipment designed for the purpose of well measurement. The equipment used shall be well suited to the conditions of construction at the wells. A list of standard methods of procedure and suitable equipment shall be available from the Department.
 - d. The permit holder/appropriator shall submit a record of the measurement to the Department on a form available from the Department. The record of measurement shall include both measurements and calculations, shall include a certification as to their accuracy signed by the individual making the measurements, and shall be received not later than 30 days from the date of measurement. The Department shall determine when any of the declines cited in section (a) are evidenced by the well measurement required in section (c).

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued JAN 15 2021

Dwight French
Water Right Services Division Administrator, for
Thomas M. Byler, Director
Oregon Water Resources Department
