

STATE OF OREGON

COUNTY OF BENTON

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

O O AGRICULTURAL INVESTMENT COMPANY LLC  
PO BOX 824  
CORVALLIS OR 97339

confirms the right to store water perfected under the terms of Permit R-15232. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-88364

SOURCE OF WATER: MUDDY CREEK AND RUNOFF, TRIBUTARIES TO WILLAMETTE RIVER

STORAGE FACILITY: UNNAMED RESERVOIR

USE: MULTIPLE PURPOSE

MAXIMUM STORAGE VOLUME: 24.4 ACRE-FEET

WATER MAY BE APPROPRIATED AS FOLLOWS: NOVEMBER 1 THROUGH MAY 31

DATE OF PRIORITY: FEBRUARY 6, 2017

Dam Location/Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
13 S	5 W	WM	6	NW SW	39	RESERVOIR POD - 3210 FEET SOUTH AND 630 FEET EAST FROM NW CORNER, SECTION 6
12 S	5 W	WM	32	SE NW	67	MUDDY CREEK POD - 2590 FEET NORTH AND 1800 FEET EAST FROM SW CORNER, SECTION 32

The Area To Be Submerged:

Twp	Rng	Mer	Sec	Q-Q	DLC
13 S	5 W	WM	6	NW SW	39

Measurement Devices, and Recording/Reporting of Annual Water Storage Conditions:

- A. The water user shall maintain, in good working order, a totalizing flow meter at each point of diversion.
- B. The water user shall allow the watermaster access to the device; provided however, where any device is located within a private structure, the watermaster shall request access upon reasonable notice.

**NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW**

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

- C. The Director may require the water user to keep and maintain a record of the volume of water stored, and may require the water user to report water-storage on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water-use information, the periods of water use and the place of use of water under the right.
- D. The Director may provide an opportunity for the water user to submit alternative measuring and reporting procedures for review and approval.

The storage of water allowed herein is subject to the maintenance of an outlet pipe (with minimum diameter of 8" for any in-channel reservoir). This requirement may be waived if the Department determines other means have been provided to evacuate water when necessary.

The water user shall pass all live flow outside the storage season described above.

The Director may require the user to measure inflow and outflow, above and below the reservoir respectively, to ensure that live flow is not impeded outside the storage season. Measurement devices and their implantation must be acceptable to the Director, and the Director may require the data be recorded on a specified periodic basis and reported to the Department annually or more frequently.

The water user shall not construct, operate or maintain any dam or artificial obstruction to fish passage in the channel of the subject stream without providing a fishway to ensure adequate upstream and downstream passage for fish, unless the water user has requested and been granted a fish passage waiver by the Oregon Fish and Wildlife Commission. The water user is hereby directed to contact an Oregon Department of Fish and Wildlife Fish Passage Coordinator, before beginning construction of any in-channel obstruction.

The water user shall maintain and operate fish screening consistent with current Oregon Department of Fish and Wildlife (ODFW) standards.

This right allows an annual appropriation (not to exceed the specified volume). This right does not provide for the appropriation of water for out-of-reservoir uses, the maintenance of the water level or maintaining a suitable freshwater condition. If any water is to be used for out-of-reservoir purposes, a secondary water right is required. If any additional live flow is to be appropriated to maintain either the water level or a suitable freshwater condition, an additional water right is required.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The use may be restricted if the quality of downstream waters decreases to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

The right to store water for the above purpose is restricted to beneficial use at the place of use described.

Issued SEP 08 2021.

Dwight French  
Water Right Services Division Administrator, for  
Thomas M. Byler, Director  
Oregon Water Resources Department
