

STATE OF OREGON  
COUNTY OF WASCO  
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

TODD O. STEVENS  
JAY D. STTEVENS  
1710 STATE RD  
MOSIER OR 97040-9778

confirms the right to the use of water perfected under the terms of Permit G-13170. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-14282

SOURCE OF WATER: FOUR WELLS WITHIN HOOD BASIN

PURPOSE or USE: IRRIGATION OF 30.0 ACRES AND DOMESTIC USE FOR TWO HOUSEHOLDS, INCLUDING THE IRRIGATION OF LAWN AND NON-COMMERCIAL GARDEN NOT TO EXCEED ONE-HALF ACRE FOR EACH

MAXIMUM RATE: 0.357 CUBIC FOOT PER SECOND (CFS) TOTAL FOR IRRIGATION, BEING 0.123 FOR WELL #2, 0.056 CFS FROM WELL #3, AND 0.178 CFS FROM WELL #6; AND 0.02 CFS FOR DOMESTIC USE FROM WELL #5, BEING 0.01 CFS FOR EACH OF TWO HOUSEHOLDS, INCLUDING THE IRRIGATOIN OF LAWN AND NON-COMERCIAL GARDEN NOT TO EXCEED ONE-HALF ACRE

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31 OF EACH YEAR FOR IRRIGATION, AND YEAR-ROUND FOR DOMESTIC USE FOR TWO HOUSEHOLDS INCLUDING THE IRRIGATION OF LAWN AND NON-COMMERCIAL GARDEN NOT TO EXCEED ONE-HALF ACRE

DATE OF PRIORITY: MARCH 29, 1996

The wells are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
2 N	12 E	WM	5	SW SE	WELL #2 - 1100 FEET NORTH AND 490 FEET EAST FROM S1/4 CORNER, SECTION 5
2 N	12 E	WM	5	SW SE	WELL #3 - 590 FEET NORTH AND 625 FEET EAST FROM S1/4 CORNER, SECTION 5
2 N	12 E	WM	5	SW SE	WELL #5 - 635 FEET NORTH AND 325 FEET EAST FROM S1/4 CORNER, SECTION 5
2 N	12 E	WM	5	SW SE	WELL#6 - 1190 FEET NORTH AND 220 FEET EAST FROM S1/4 CORNER, SECTION 5

**NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW**

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

A description of the place of use is as follows:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
2 N	12 E	WM	5	SW SE	30.00

WELL 5 for DOMESTIC					
Twp	Rng	Mer	Sec	Q-Q	
2 N	12 E	WM	5	SE SW	
2 N	12 E	WM	5	SW SE	

To monitor the effect of water use from the well authorized under this right, the Director may require the water user to make and report annual static water level measurements. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement. The measurements may be required in a different month. If the measurement requirement is stopped, the Director may restart it at any time.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- (A) Identify each well with its associated measurement; and
- (B) Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- (C) Specify the method used to obtain each well measurement; and
- (D) Certify the accuracy of all measurements and calculations submitted to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well if annual water level measurements reveal any of the following events:

- (A) An average water level decline of three or more feet per year for five consecutive years; or
- (B) A water level decline of 15 or more feet in fewer than five consecutive years; or
- (C) A water level decline of 25 or more feet; or
- (D) Hydraulic interference leading to a decline of 25 or more feet in any neighboring well with senior priority.

The reference level against which any future measurements will be compared is 10.5 feet below land surface for Well #2, 11.0 feet below land surface for Well #3, 17.4 feet below land surface for Well #5, and 13.3 feet below land surface for Well #6.

The period of non-use or restricted use shall continue until the water level rises above the decline level which triggered the action or until the Department determines, based on the water user's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this right. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

The aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this right. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The well(s) shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued JUN 03 2022

Dwight French  
Water Right Services Division Administrator, for  
Thomas M. Byler, Director  
Oregon Water Resources Department
