The water user shall maintain the totalizing flow meters or measuring devices, as approved by the Director, in good working order, at each point of appropriation, (new and existing), shall keep a complete record of the amount of water used each month, and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the water user to report general water-use information, including the place and nature of use of water under the right.

The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.
