

STATE OF OREGON
COUNTY OF MORROW
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

WILLOW CREEK DISTRICT IMPROVEMENT CO.
C/O BRIAN THOMPSON
55805 HWY 74
HEPPNER OR 97836

BRIAN THOMPSON
55805 HWY 74
HEPPNER OR 97836

confirms the right to use the waters of WILLOW CREEK, a tributary of COLUMBIA RIVER for IRRIGATION of 23.5 ACRES.

This right was perfected under Permit S-4528. The date of priority is APRIL 5, 1920. The amount of water to which such right is entitled and hereby confirmed, for purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.3 cubic foot per second.

The use hereunder for irrigation shall conform to such reasonable rotation system as may be ordered by the proper state officer.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent in case of rotation.

The points of diversion are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
2 S	26 E	WM	7	NW SE	ORIGINAL POD - 1216 FEET SOUTH AND 958 FEET EAST FROM C1/4 CORNER, SECTION 7
2 S	26 E	WM	27	NE NW	WCDIC POD (ADDITIONAL) - 1120 FEET SOUTH AND 1820 FEET EAST FROM NW CORNER, SECTION 27

A description of the lands irrigated under such right hereby confirmed, and to which such right is appurtenant, (or, if for other purposes, the place where such water is put to beneficial use) is as follows:

Twp	Rng	Mer	Sec	Q-Q	Acres
2 S	26 E	WM	6	NW SW	4.0
2 S	26 E	WM	6	SW SW	17.3
2 S	26 E	WM	6	SE SW	2.2

Water use measurement conditions:

- A. The water user shall maintain the totalizing flow meter or other suitable measuring device as approved by the Director in good working order at each new point of diversion.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

B. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

The quantity of water diverted at the additional point of diversion, together with that diverted at the original point of diversion, shall not exceed the quantity of water lawfully available at the original point of diversion.

In order to avoid enlargement of the right or injury to other rights, it is preferable to have a flowmeter installed that reads instantaneous, totalizes, and has real-time access so the Watermaster can access the flow data. However, if the flowmeter will not work and provide the real time data, the Watermaster can approve an alternative type of measuring device that will provide instantaneous data, totalizes, and will provide real time access to the flow data.

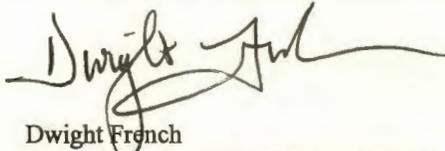

The water user shall maintain a headgate to control and regulate the quantity of water diverted as required by the Department.

The water user shall operate and maintain the fish screen at the new point of diversion consistent with Oregon Department of Fish and Wildlife's (ODFW) operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

The right to the use of the water for irrigation purposes is restricted to the lands or place of use herein described.

This certificate is issued to confirm a change in ADDITIONAL POINT OF DIVERSION approved by an order of the Water Resources Director entered MARCH 6, 2017, at Special Order Volume 104, Page 37, approving Transfer Application T-11699, supersedes Certificate 4863, State Record of Water Right Certificates.

Issued OCT 07 2022

Dwight French
Water Right Services Division Administrator, for
Douglas E. Woodcock, Acting Director
Oregon Water Resources Department
