

STATE OF OREGON

COUNTY OF GRANT

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

MARK CRISSMAN
30483 HWY 395W
LONG CREEK OR 97856

confirms the right to store water perfected under the terms of Permit R-15117. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-87899

SOURCE OF WATER: RUNOFF AND SEEPAGE, TRIBUTARIES OF FOX CREEK

STORAGE FACILITIES: DEER HOUSE POND, MULLIGAN HOUSE SITE POND, BUCK RIDGE POND, ASPEN PATCH POND, AND HYATT PLACE POND

PURPOSE OR USE OF THE STORED WATER: AESTHETICS, FIRE PROTECTION, LIVESTOCK, AND WILDLIFE

MAXIMUM VOLUME: 15.09 ACRE FEET (AF), BEING 2.64 AF IN DEER HOUSE POND, 2.98 AF IN MULLIGAN HOUSE SITE POND, 2.73 AF IN BUCK RIDGE POND, 4.04 AF IN ASPEN PATCH POND, AND 2.7 AF IN HYATT PLACE POND

WATER MAY BE APPROPRIATED FOR STORAGE DURING THE PERIOD: JANUARY 1 THROUGH APRIL 14

DATE OF PRIORITY: MAY 17, 2013

DAM LOCATIONS:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
11 S	30 E	WM	9	NE NE	DAM #1 - DEER HOUSE POND - 20 FEET SOUTH AND 410 FEET WEST FROM NE CORNER, SECTION 9
11 S	30 E	WM	4	SE SW	DAM #2 - MULLIGAN HOUSE SITE POND - 980 FEET NORTH AND 1250 FEET EAST FROM SW CORNER, SECTION 4
11 S	30 E	WM	4	SW SW	DAM #3 - BUCK RIDGE POND - 880 FEET NORTH AND 380 FEET EAST FROM SW CORNER, SECTION 4
11 S	30 E	WM	7	SE SE	DAM #4 - ASPEN PATCH POND - 530 FEET NORTH AND 250 FEET WEST FROM SE CORNER, SECTION 7
11 S	30 E	WM	17	NW NW	DAM #5 - HYATT PLACE POND - 640 FEET SOUTH AND 630 FEET EAST FROM SE CORNER, SECTION 7

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

THE AREAS SUBMERGED BY THE RESERVOIRS ARE LOCATED AS FOLLOWS:

Pond	Twp	Rng	Mer	Sec	Q-Q
DEER HOUSE	11 S	30 E	WM	4	SE SE
DEER HOUSE	11 S	30 E	WM	9	NE NE
MULLIGAN HOUSE SITE	11 S	30 E	WM	4	SW SW
MULLIGAN HOUSE SITE	11 S	30 E	WM	4	SE SW
BUCK RIDGE	11 S	30 E	WM	4	SW SW
ASPEN PATCH	11 S	30 E	WM	7	SE SE
HYATT PLACE	11 S	30 E	WM	17	NW NW

Measurement devices, and recording/reporting of annual water storage conditions:

- A. The Director may require the water user to install a staff gage that measures the entire range and stage between full reservoir level and dead-pool level in the reservoirs. If no dead-pool, the gage must measure the full depth of the reservoir. If the Director notifies the water user to install a staff gage, the water user shall install such device within the period stated in the notice. Once installed, the water user shall maintain the device in good working order and shall allow the watermaster access to the device.
- B. The Director may require the water user to keep and maintain a record of the volume of water stored, and may require the water user to report water-storage on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water-use information, the periods of water use and the place and nature of use of water under the right.
- C. The Director may provide an opportunity for the water user to submit alternative measuring and reporting procedures for review and approval.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe (with a minimum diameter of 8" for any in-channel reservoir). This requirement may be waived if the Department determines other means have been provided to evacuate water when necessary.

The water user shall pass all live flow outside the storage season described above.

The Director may require the water user to measure inflow and outflow, above and below the reservoir respectively, to ensure that live flow is not impeded outside the storage season. Measurement devices and their implantation must be acceptable to the Director, and the Director may require that data be recorded on a specified periodic basis and reported to the Department annually or more frequently.

This right allows an annual appropriation (not to exceed the specified volume). This right does not provide for the appropriation of water for out-of-reservoir uses, the maintenance of the water level or maintaining a suitable freshwater condition. If any water is to be used for out-of-reservoir purposes, a secondary water right is required. If any additional live flow is to be appropriated to maintain either the water level or a suitable fresh water condition, an additional water right is required.

Notwithstanding that Oregon Department of Fish and Wildlife has made a determination that fish screens are not necessary at this time, the water user may be required in the future to install, maintain, and operate fish-screening devices to prevent fish from entering the diversion.

Diversion of water under this right is contingent on designated scenic waterway flows being met downstream. The user is required to monitor streamflow at John Day River at McDonald Ferry, Oregon, gage 14048000, and discontinue diversion when the flows specified below are unmet at the gage. At the discretion of the Director, the location and nature of streamflow monitoring required to protect scenic waterway flows is subject to change. In addition, the watermaster may regulate diversion under this right if it is determined by the Department that the flows listed below are unmet at the gage.

John Day Scenic Waterway	
Month	Minimum Flow (cfs)
January	500
February	1000
March – April 14	2000

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

The use may be restricted if the quality of the source stream or downstream waters decreases to the point that those waters no longer meet state or federal water quality standards due to reduced flows.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to store water for the above purpose is restricted to beneficial use at the place of use described.
