

STATE OF OREGON  
 COUNTY OF CLACKAMAS  
 CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO:

HEIDI AFFENTRANGER  
 16971 S CLACKAMAS RIVER DR  
 OREGON CITY OR 97045

confirms the right to store water perfected under the terms of Permit R-15155. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-88141

SOURCE OF WATER: CLACKAMAS RIVER, A TRIBUTARY TO WILLAMETTE RIVER

STORAGE FACILITY: AN UNNAMED RESERVOIR

MAXIMUM VOLUME: 1.50 ACRE-FEET

DATE OF PRIORITY: OCTOBER 23, 2015

WATER MAY BE APPROPRIATED AS FOLLOWS: NOVEMBER 1 THROUGH JUNE 30

USE: MULTIPLE PURPOSE

**Dam Location/Authorized Point of Diversion:**

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
2S	2E	WM	14	NE NE	250 FEET SOUTH AND 500 FEET WEST FROM NE CORNER, SECTION 14

**The Area Submerged:**

Twp	Rng	Mer	Sec	Q-Q
2S	2E	WM	14	NE NE

**NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW**

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Measurement devices, and recording/reporting of annual water use conditions:

- A. The Director may require the water user to install a totalizing flow meter at each point of diversion. If the Director notifies the water user to install a measuring device, the water user shall install such device within the period stated in the notice. Once installed, the water user shall maintain the device in good working order, and shall allow the watermaster access to the meter or measuring device.
- B. The Director may require the water user to keep and maintain a record of the volume of water diverted, and may require the water user to report water-use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water-use and the place and nature of use of water under the right.
- C. The Director may provide an opportunity for the water user to submit alternative measuring and reporting procedures for review and approval.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe (with a minimum of 8" for any in-channel reservoir). This requirement may be waived if the Department determines other means have been provided to evacuate water when necessary.

The water user shall pass all live flow outside the storage season described above.

The director may require the user to measure inflow and outflow, above and below the reservoir respectively, to ensure the live flow is not impeded outside the storage season. Measurement devices and their implements must be acceptable to the Director, and the Director may require that data be recorded on a specified periodic basis and reported to the department annually or more frequently.

The water user shall not construct, operate or maintain any dam or artificial obstruction to fish passage in the channel of the subject stream without providing a fishway to ensure adequate upstream and downstream passage for fish, unless the water user has requested and been granted a fish passage waiver by the Oregon Department of Fish and Wildlife Commission. The water user is hereby directed to contact an Oregon Department of Fish and Wildlife Fish Passage Coordinator, before beginning any construction of any in-channel obstruction.

Notwithstanding that Oregon Department of Fish and Wildlife has made a determination that fish screens are not necessary at the time of permit issuance, the water user may be required in the future to install, maintain, and operate fish screening devices to prevent fish from entering the diversion.

This right allows an annual appropriation (not to exceed the specified volume). This right does not provide for the appropriation of water for out-of-reservoir uses, the maintenance of the water level or maintaining a suitable freshwater condition. If any water is to be used for out-of-reservoir purposes, a secondary water right is required. If any additional live flow is to be appropriated to maintain either the water level or a suitable freshwater condition, an additional water right is required.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The use may be restricted if the quality of the source downstream waters decreases to the point that those waters no longer meet existing state and federal water quality standards due to reduced flows.

The right to store water for the above purpose is restricted to beneficial use at the place of use described.

Issued **FEB 10 2023**

Dwight French  
Water Right Services Division Administrator, for  
Douglas E. Woodcock, Acting Director  
Oregon Water Resources Department
