By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

This right does not authorize the water user to pursue this right in such a way as to interfere with or affect adjacent property not under the ownership of the water user.

The right to store water for the above purpose is restricted to beneficial use at the place of use described.
