NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

The quantity of water diverted at the new point of diversion, shall not exceed the quantity of water lawfully available at the original point of diversion described as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
9 S	4 W	WM	23	SE SW	WILLAMETTE RIVER DIVERSION - 450 FEET NORTH AND 1520 FEET EAST FROM SW CORNER OF SECTION 23

Measurement, recording and reporting conditions:

- A. The water user shall maintain the totalizing flow meters or measuring devices, as approved by the Director, in good working order, at each point of diversion, and shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the water user to report general water use information, including the place and nature of use of water under the right.
- B. The water user shall allow the watermaster access to the meter or measuring devices; provided however, where the meter or measuring devices is located within a private structure, the watermaster shall request access upon reasonable notice.

The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with Oregon Department of Fish and Wildlife's (ODFW) operational and maintenance standards, to prevent fish from entering the proposed diversion.

The use of stored water under this right is subject to the terms of conditions of contract No. 5-07-10-W1040, or a satisfactory replacement, between the Bureau of Reclamation and the water user.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancelation of the right.

The right to the use of the water for the above purpose is restricted to beneficial use without waste on the lands or place of use described. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with the water use must be in compliance with the statewide land-use goals and any local acknowledged land-use plan.

The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

This certificate is issued to confirm a change in POINT OF DIVERSION approved by an order of the Water Resources Director entered July 16, 2013, at Special Order Volume 85, Page 70, approving Transfer Application T-9662, and together with Certificate 86805, supersedes Certificate 81322, State record of Water Right Certificates.
