

STATE OF OREGON
COUNTY OF DESCHUTES
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

RANDALL SHEPARD
LAURA SHEPARD
PO BOX 1087
SISTERS OR 97759

confirms the right to the use of water perfected under the terms of Permit G-12549. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the well. The specific limits and conditions of the use are listed below.

SOURCE: A WELL IN THE DESCHUTES RIVER BASIN

USE: IRRIGATION OF 2.0 ACRES

RATE: 0.025 CUBIC FOOT PER SECOND

PRIORITY DATE: AUGUST 11, 1993

The well is located as follows:

| Twp | Rng | Mer | Sec | Q-Q | Measured Distances |
|------|------|-----|-----|-------|--|
| 16 S | 11 E | WM | 7 | SE NE | POA 2 - 807 FEET NORTH AND 942 FEET WEST FROM E1/4 CORNER, SECTION 7 |

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year. The period of use under this right is limited to March 1 through October 31 of each year. The use shall conform to such reasonable rotation system as may be directed by the proper state officer.

A description of the place of use is as follows:

| Twp | Rng | Mer | Sec | Q-Q | Acres |
|------|------|-----|-----|-------|-------|
| 16 S | 11 E | WM | 7 | SE NE | 2.0 |

The quantity of water diverted at the new point of appropriation (well) shall not exceed the quantity of water lawfully available from the original point of appropriation described as follows:

| Twp | Rng | Mer | Sec | Q-Q | Measured Distances |
|------|------|-----|-----|-------|--|
| 16 S | 11 E | WM | 7 | SE NE | 806.78 FEET NORTH AND 941.70 FEET WEST FROM E1/4 CORNER, SECTION 7 |

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Water use measurement conditions:

- a) The water user shall maintain a totalizing flow meter, or other suitable measuring device as approved by the Director, in good working order, at each point of appropriation (new and existing).
- b) The water user shall allow the Watermaster access to the meter or measuring device; provided however, where the meter or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
- c) The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

Water shall be acquired from the same aquifer (water source) as the original point of appropriation.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approved or implements an alternative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interference.

Use of water under authority of this right may be regulated if analysis of data available discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effects as of the priority date of the right or as those quantities may be subsequently reduced.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The Department may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

The right to the use of the water for the above purpose is restricted to beneficial use without waste on the lands or place of use described. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

This certificate is issued to confirm a change in POINT OF APPROPRIATION AND PLACE OF USE approved by an order of the Water Resources Director entered October 27, 2020, at Special Order Volume 117, Page 760, approving Transfer Application T-13279, supersedes Certificate 94453, State record of Water Right Certificates.

Issued **JUL 28 2023**

Dwight French
Water Right Services Division Administrator, for
Douglas E. Woodcock, Acting Director
Oregon Water Resources Department
