

STATE OF OREGON
COUNTY OF DESCHUTES
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

JOHN & MARILYN KINGERY
18690 PINEHURST RD
BEND, OR 97703

confirms the right to use the waters of A WELL in the DESCHUTES RIVER BASIN for SUPPLEMENTAL IRRIGATION OF 1.14 ACRES.

This right was perfected under Water right G-13107. The date of priority is OCTOBER 24, 1995. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 0.011 CUBIC FOOT PER SECOND, or its equivalent in case of rotation, measured at the well. The period of use under this right for supplemental irrigation is April 1 to November 1 each year.

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
16 S	11 E	WM	27	SW SE	850 FEET NORTH AND 250 FEET EAST FROM S1/4 CORNER, SECTION 27

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year. This right is limited to any deficiency in the available supply of any prior right existing for the same land.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

A description of the place of use to which this right is appurtenant is as follows:

SUPPLEMENTAL IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
16 S	11 E	WM	27	SW SE	1.14

Measurement, recording and reporting conditions:

- A. The water user shall install a meter or other suitable measuring device as approved by the Director. The water user shall maintain the meter or measuring device in good working order.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this water right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

Use of water under authority of this right may be regulated if analysis of data available discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right to use water for the above purpose is restricted to beneficial use, without waste, on the lands for place of use described. The water user is advised that new regulations may require use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds the use of water described by this right, as conditioned, will not impair or be detrimental to the public interest.

This certificate confirms a change in PLACE OF USE approved by an order of the Water Resources Director entered February 16, 2023, at Special Order Volume 127, Page 443 approving Transfer Application T-14135, and together with Certificate 96910 supersedes Certificate 79719, State Record of Water Right Certificates.

WITNESS the signature of the Water Resources Director, affixed NOV 16 2023.

Lisa J. Jaramillo, Transfer and Conservation Section Manager, for
Douglas E. Woodcock, Acting Director
Oregon Water Resources Department
