The quantity of water diverted at the additional points of appropriation, together with that diverted at the original points of appropriation, shall not exceed the quantity of water lawfully available at the original points of appropriation.

Water shall be acquired from the same aquifer (water source) as the original points of appropriation.

Water use measurement conditions:

- a) The water user shall maintain a totalizing flow meter, or other suitable measuring device, as approved by the Director, at each point of appropriation, new and existing in good working order.
- b) The water user shall allow the watermaster access to the meters or measuring devices; provided however, where the meters and measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

The water user shall maintain the headgate to control and regulate the quantity of water diverted, as required by the Department.

The water user shall maintain and operate a fish screen at the new point of diversion consistent with Oregon Department of Fish and Wildlife's operational and maintenance standards.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described and is subject to the existing minimum flow policies established by the Water Policy Review Board

This certificate is issued to confirm ADDITIONAL POINTS OF APPROPRIATION AND CHANGE IN PLACE OF USE approved by an order of the Water Resources Director entered October 24, 2014, at Special Order Volume 93, Page 761, approving Transfer Application T-11585, supersedes Certificate 44770, State record of Water Right Certificates.
