

STATE OF OREGON

COUNTY OF MARION

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ROTH FAMILY LLC
12513 HOBART RD
SILVERTON, OR 97381

confirms the right to use the waters under Permit G-17076. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed the amount specified, or its equivalent in case of rotation, measured at the point of diversion from the source. The specific limits and conditions are listed below.

SOURCE OF WATER: WELL 1 AND WELL 2, BOTH IN THE WILLAMETTE RIVER BASIN

PURPOSE OR USE: IRRIGATION, TO MAKE UP A DEFICIENCY IN RATE FOR PERMIT G-11434, of 91.7 ACRES

MAXIMUM RATE: A MAXIMUM CUMULATIVE TOTAL OF 0.685 CUBIC FOOT PER SECOND (CFS), FURTHER LIMITED TO .43 CFS FROM WELL 1 AND .34 CFS FROM WELL 2

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31

DATE OF PRIORITY: DECEMBER 20, 1996

The wells are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
6 S	1 W	WM	27	SW NW	WELL 1 - 2013 FEET SOUTH AND 26 FEET EAST FROM THE NE CORNER OF SECTION 28
6 S	1 W	WM	28	NW SE	WELL 2 - 1500 FEET SOUTH AND 70 FEET WEST FROM THE NW CORNER OF DLC 44

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

A description of the place of use to which this right is appurtenant is as follows:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
6 S	1 W	WM	27	NW SW	44	0.3
6 S	1 W	WM	28	SW NE	44	0.2
6 S	1 W	WM	28	SE NE	44	1.2

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
6 S	1 W	WM	28	NE SE	44	31.0
6 S	1 W	WM	28	NW SE	43	6.9
6 S	1 W	WM	28	NW SE	44	3.2
6 S	1 W	WM	28	SW SE	44	2.4
6 S	1 W	WM	28	SW SE	43	16.8
6 S	1 W	WM	28	SE SE	44	29.7
TOTAL						91.7

The quantity of water diverted at the new point of appropriation (Well 1) shall not exceed the quantity of water lawfully available at the original point of appropriation (Old Well 1).

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or other suitable measuring device approved by the Director in good working order, shall keep a complete record of the amount of water used each month, and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the water user to report general water-use information, including the place and nature of use of water under the right.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

- (1) Use of water from the well, as allowed herein, shall be controlled or shut off if the well displays:
 - (a) An average water level decline of three or more feet per year for five consecutive years; or
 - (b) A total water level decline of fifteen or more feet; or
 - (c) A hydraulic interference decline of fifteen or more feet in any neighboring well providing water for senior exempt uses or wells covered by prior rights.
- (2) The water user shall install a meter or other measuring device suitable to the Director, and shall submit an annual report of water used to the Department by December 1 of each year.
- (3) The water user shall be responsible for complying with each of the following requirements for

measuring water levels in the well.

- (a) Use of water from a new well shall not begin until an initial static water level in the well has been measured and submitted to the Department.
- (b) In addition to the measurement required in subsection (a) of this section, a water level measurement shall be made each year during the period March 1 through March 31.
- (c) All water level measurements shall be made by a qualified individual. Qualified individuals are certified water rights examiners, registered geologists, registered professional engineers, licensed land surveyors, licensed water well constructor, licensed pump installer, or the water user.
- (d) Any qualified individual measuring a well shall use standard methods of procedure and equipment designed for the purpose of well measurement. The equipment used shall be well suited to the conditions of construction at the well. A list of standard methods of procedure and suitable equipment shall be available from the Department.
- (e) The water user shall submit a record of the measurement to the Department on a form available from the Department. The record of measurement shall include both measurements and calculations, shall include a certification as to their accuracy signed by the individual making the measurements, and shall be submitted to the Department within 90 days from the date of measurement. The Department shall determine when any of the declines cited in section (1) are evidenced by the well measurement required in section (3).

Ground water for use under this right shall be produced from the basalt aquifer between approximately 350 and 700 feet below land surface. Neither well may be perforated above the basalt aquifer.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The wells shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

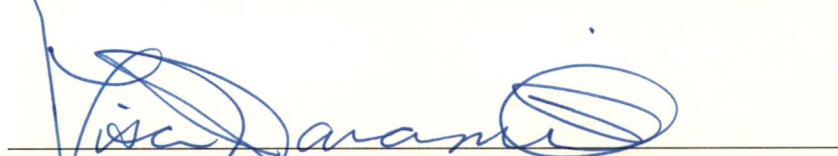

The use of water shall be limited when it interferes with any prior surface or ground water rights.

This certificate describes that portion of water right Certificate 93894, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered SEP 06 2024, approving Transfer Application T-14059.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed SEP 06 2024.

Lisa J. Jaramillo, Transfer and Conservation Section Manager, for
IVAN GALL, DIRECTOR
Oregon Water Resources Department
