Diversions screening or fish passage facilities shall be designed, installed, and operated to Oregon Department of Fish and Wildlife specifications.

The water user is required to install and maintain an in-line flow meter, weir, or other suitable device approved by the watermaster for measuring and recording the quantity of water diverted.

The water user is required to install and maintain on reservoir 2 an outlet pipe with a minimum diameter of 8 inches and an approved controlling device or shall provide other means to bypass direct flows or to evacuate the stored water.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to store water for the above purpose is restricted to beneficial use at the place of use described.
