The water user shall maintain a staff gage that measures the entire range and stage between full reservoir level and dead pool storage in the reservoir. The staff gage shall be permanently located in the pool to allow readings of total range of pool elevations or surveyed to a permanent monument and be United States Geological Survey style porcelain enamel iron staff gage style A, C, E, I or M. The water user shall take a reading from the gage once a month and keep a record of these measurements and shall be responsible for maintaining the gage. The water user shall submit a report which includes the recorded water use measurements to the Department at its request. The water user may be required to measure water use more frequently or report annually or more frequently as may be required by the Director. Further, the Director may require the water user to report general water use information, including the place and nature of use of water under the right.

The storage of water allowed herein is subject to the installation and maintenance of a fully functional conduit/gate assembly having a minimum diameter of 8 inches.

Use under this right is limited to the reservoir area. This right does not provide for the appropriation of water for maintaining the water level or maintaining a suitable fresh water condition.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to store water for the above purpose is restricted to beneficial use at the place of use described.

Issued OCT 18 2024.
