

STATE OF OREGON

COUNTY OF DOUGLAS

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

MARK GARRETT
SABRINA GARRETT
PO BOX 2191
ROSEBURG OR 97570

confirms the right to the use of water perfected under the terms of Permit S-55379. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-88926

SOURCE OF WATER: SOUTH UMPQUA RIVER, TRIBUTARY OF UMPQUA RIVER

PURPOSE or USE: HUMAN CONSUMPTION USE (INDOOR USE ONLY: COOKING, DRINKING, AND SANITATION) FOR ONE HOUSEHOLD

MAXIMUM RATE: 0.005 CUBIC FOOT PER SECOND, FURTHER LIMITED TO 500 GALLONS PER DAY

PERIOD OF USE: JANUARY 1 THROUGH DECEMBER 31

DATE OF PRIORITY: MARCH 15, 2021

AUTHORIZED POINT OF DIVERISON:

Twp	Rng	Mer	Sec	Q-Q	GLot	Measured Distances
30 S	4 W	WM	22	SW NW	5	2450 FEET SOUTH AND 910 FEET EAST FROM NW CORNER, SECTION 22

AUTHORIZED PLACE OF USE:

Twp	Rng	Mer	Sec	Q-Q	GLot
30 S	4 W	WM	22	SW NW	5

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Water Use Measurements, Recording, and Reporting:

- A. The Director may require the water user to install an in-line flow restrictor at each point of diversion. If the Director notifies the water user to install a measuring device, the water user shall install such device within the period stated in the notice. Once installed, the water user shall in good working order, and shall allow the watermaster access to the device.
- B. The Director may require the water user to keep and maintain a record of the volume of water diverted, and may require the water user to report water-use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water-use information, the periods of water use and the place and nature of use of water under the right.
- C. The Director may provide an opportunity for the water user to submit alternative measuring and reporting procedures for review and approval.

The water user shall maintain and operate fish screening consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the diversion.

Any in-water work related maintenance of the use shall be conducted during the preferred work period of July 1 through August 31, unless an alternate time period is approved by the Oregon Department of Fish and Wildlife.

All water use under this water right shall comply with state and federal water quality laws. The water user shall not violate any state or federal water quality standards, shall not cause pollution of any waters of the state, and shall not place or cause to be placed any wastes in a location where such waters are likely to escape or be carried into the waters of the state by any means. The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued OCT 25 2024

Dwight French
Water Right Services Division Administrator, for
Ivan Gall, Director
Oregon Water Resources Department
