Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Water use measurement condition:

- b. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within the private structure, the Watermaster shall request access upon reasonable notice.

The water user shall maintain the headgate to control and regulate the quantity of water diverted, as required by the Department.

The water user shall not construct, operate or maintain any dam or artificial obstruction to fish passage without obtaining approval from Oregon Department of Fish and Wildlife (ODFW). The water user is hereby directed to contact an ODFW Fish Passage Coordinator prior to construction of any in-channel obstruction or prior to diversion of water that may create an artificial obstruction due to low flow.

The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the points of diversion consistent with Oregon Department of Fish and Wildlife's (ODFW's) operational and maintenance standards. Fish screening is to prevent fish from entering the diversion. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

Water shall be acquired from the same source as the original points of diversion.
