

STATE OF OREGON

COUNTY OF JACKSON

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

CHARLES SARIS
ELLEN SARIS
306 PARK DR
SHADY COVE OR 97539

confirms the right to the use of water perfected under the terms of Permit S-55453. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-88854

SOURCE OF WATER: ROGUE RIVER, TRIBUTARY OF PACIFIC OCEAN

PURPOSE or USE: HUMAN CONSUMPTION USE (INDOOR USE ONLY: COOKING, DRINKING, SANITATION) FOR ONE HOUSEHOLD

MAXIMUM RATE: 0.005 CUBIC FOOT PER SECOND, FURTHER LIMITED TO 500 GALLONS PER DAY

PERIOD OF USE: JANUARY 1 THROUGH DECEMBER 31

DATE OF PRIORITY: JULY 29, 2020

The point of diversion is located as follows:

TwP	Rng	Mer	Sec	Q-Q	GLot	Measured Distances
34 S	1 W	WM	16	NE SE	3	1500 FEET NORTH AND 620 FEET WEST FROM SE CORNER, SECTION 16

A description of the place of use is as follows:

TwP	Rng	Mer	Sec	Q-Q	GLot
34 S	1 W	WM	16	NE SE	3
34 S	1 W	WM	16	SE SE	1

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

Water Use Measurement, Recording, and Reporting:

- A. The water user shall maintain a totalizing flow meter at each point of diversion, in good working order.
- B. The water user shall allow the watermaster access to the device; provided however, where any device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The permittee shall keep a complete record of the volume of water diverted each month, and shall submit a report which includes water-use measurements to the Department annually, or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water-use information, including the place and nature of the use of water under the permit.
- D. The Director may provide an opportunity for the water user to submit alternative measuring and reporting procedures for review and approval.

The water user shall maintain adequate passage of native migratory fish at all times (ORS 509.610) and shall not construct, operate or maintain any dam or artificial obstruction to fish passage across any waters of the state that are inhabited, or where historically inhabited by native migratory fish (ORS 509.585).

The water user shall maintain and operate fish screening consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the diversion.

Any in-water work related to maintenance of the use shall be conducted during the preferred work period of July 15 through September 1, unless an alternate time period is approved by Oregon Department of Fish and Wildlife.

All water use under this right shall comply with state and federal water quality laws. The water user shall not violate any state and federal water quality standards, shall not cause pollution of any waters of the state, and shall not place or cause to be placed any wastes in a location where such wastes are likely to escape or be carried into the waters of the state by any means. The use may be restricted if the quality of source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards.

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued AUG 15 2025.

Katherine Ratcliffe
Water Right Services Division Administrator, for
Ivan Gall, Director
Oregon Water Resources Department
