

STATE OF OREGON

COUNTY OF MULTNOMAH

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

PORT OF PORTLAND
7200 NE AIRPORT WAY
PORTLAND OR 97218

confirms the right to store water perfected under the terms of Permit R-15553. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-89127

SOURCE OF WATER: RUNOFF, TRIBUTARY TO SALMON CREEK

STORAGE FACILITY: WEST SUNDIAL WETLAND

MAXIMUM VOLUME: 71.1 ACRE-FEET

PURPOSE OR USE OF THE STORED WATER: WETLAND ENHANCEMENT

WATER MAY BE APPROPRIATED FOR STORAGE DURING THE PERIOD: JANUARY 1 THROUGH DECEMBER 31

DATE OF PRIORITY: JUNE 11, 2021

DAM LOCATION/POINT OF DIVERSION:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
1 N	3 E	WM	22	SW NW	40	CENTER OF BERM - 1610 FEET SOUTH AND 325 FEET EAST FROM NW CORNER, SECTION 22

THE AREA SUBMERGED BY THE RESERVOIR:

Twp	Rng	Mer	Sec	Q-Q	DLC
1 N	3 E	WM	22	SW NE	40
1 N	3 E	WM	22	SW NE	47
1 N	3 E	WM	22	SE NE	40
1 N	3 E	WM	22	SW NW	40
1 N	3 E	WM	22	SE NW	40
1 N	3 E	WM	22	SE NW	47

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

Water Use Measurement, Recording and Reporting:

- A. The water user shall maintain, in good working order, a staff gage that measures the entire range and stage between full reservoir level and dead-pool storage. If no dead-pool, the gage must measure the full depth of the reservoir.
- B. The water user shall allow the watermaster access to the device; provided however, where any device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The water user shall keep a complete record of the volume of water stored each month and shall submit a report which includes water-storage measurements to the Department annually (or more frequently as may be required by the Director). Further, the Director may require the water user to report general water-use information, including the place and nature of use of water under the right.
- D. The Director may provide an opportunity for the water user to submit alternative measuring and reporting procedures for review and approval.

Water Quality:

All water use under this right shall comply with state and federal water quality laws. The water user shall not violate any state and federal water quality standards, shall not cause pollution of any waters of the state, and shall not place or cause to be placed any wastes in a location where such wastes are likely to escape or be carried into the waters of the state by any means. The use may be restricted if the quality of source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards.

On-Channel Reservoir:

The water user shall operate the water storage facility such that all waters within and below the reservoir meet water quality criteria. The reservoir operator shall maintain a copy of the reservoir operations plan, that details how water quality criteria and standards will be met, and make it available for review upon request.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe (with a minimum diameter of 8' for any in-channel reservoir). This requirement may be waived if the Department determines other means have been provided to evacuate water when necessary.

The water user shall pass all live flow outside the storage season described above.

This right allows an annual appropriation (not to exceed the specified volume). This right does not provide for the appropriation of water for out-of-reservoir uses, the maintenance of the water level or maintaining a suitable freshwater condition. If any water is to be used for out-of-reservoir purposes, a secondary water right is required. If any additional live flow is to be appropriated to maintain either the water level or a suitable freshwater condition, an additional water right is required.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to store water for the above purpose is restricted to beneficial use at the place of use described.

Issued DEC 03 2024.

Dwight French
Water Right Services Division Administrator, for
Ivan Gall, Director
Oregon Water Resources Department
